

**Arizona Department of Corrections
Prison Rape Elimination Act (PREA)
Annual Report**

PREA Background

PREA was established in 2003 to address sexual abuse and sexual harassment of persons in the custody of U.S. correctional agencies. Major provisions of PREA include the development of standards for detection, prevention, reduction and punishment of sexual abuse and sexual harassment in confinement settings. The Act applies to all public and private institutions that house adult or juvenile offenders. On August 20, 2012, the PREA standards final rule became effective.

The Arizona Department of Corrections has a zero tolerance policy on issues pertaining to sexual abuse and sexual harassment involving inmates and is working continuously to develop and implement policies to prevent, detect, and respond to sexual misconduct allegations.

Definitions

Substantiated allegation means an allegation was investigated and determined to have occurred.

Unsubstantiated allegation means an allegation was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred.

Unfounded allegation means an allegation was investigated and determined not to have occurred.

2015 Analysis/Corrective Action

Completed PREA audits of three ADC facilities and three private contracted facilities by DOJ certified auditors and all met compliance; four facilities were issued final reports not requiring any corrective action; two facilities received interim reports requiring corrective action which was implemented within the corrective action period.

Selected ADC employees throughout ADC have been trained and certified to provide rape crisis advocacy to inmate sexual abuse victims by the Arizona coalition. Several ADC facilities have agreements with local rape crisis centers to provide advocacy to inmate sexual abuse victims. ADC is pursuing agreements with other rape crisis centers for these services.

ADC requires PREA training for all employees, contractors and volunteers annually and beyond the PREA standards requirement.

Monitoring technology improvements have been made in facility areas that were determined to need enhancements. Blind spot reduction in facilities has been implemented; such as the addition of windows and removal or lowering of visual barrier obstructions in areas inmates work and program.

2016 Calendar Year: Will be added upon submittal to the Bureau of Justice Statistics (BJS).
