### Physical Plant

**Number of buildings:**

Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

**Number of inmate housing units:**

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a “housing unit” defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

Arizona State Prison - Marana (ASP - Marana) was audited for compliance with the Prison Rape Elimination Act from October 23 through October 25, 2020. The facility contacted Corrections Management and Communication LLC to conduct a PREA audit. The facility posted notices of the audit on several occasions and updated due to the changing of audit dates. The final updated was on June 17, 2020. The facility was originally scheduled to be audited in May, 2020 but was moved to the later date due to orders of Arizona Governor and CDC recommendations for travel restriction due to the COVA 19 Pandemic. The facility had sent Pre-Audit Questionnaire in April. An updated Pre-Audit Questionnaire was completed in September 2020. Prior to the on-site visit, the PREA Compliance Manager and facility staff forwarded agency and institution policies and supporting documentation, including the completed Pre-Audit Questionnaire, administrative reports, contracts, incident reports, memorandums, brochures, staff rosters, staffing plans, training information, and other reference materials for examination. Arizona Department of Correction’s policies are provided in the form of Program Statement which are included in the Statement of Work required for contract compliance by MTC in managing Arizona State Prison - Marana. MTC policies and ASP - Marana policies and directives were provided for standards that as required for compliance with mandates such as Agency PREA Coordinator and Facility PREA compliance manager. Updates of the Pre audit questionnaire, investigations and updated policies and directives were also discuss Arizona State Prison-Marana prior to the beginning of the audit. ASP - Marana houses offenders from Arizona Department of Corrections (ADC).

Notices of the upcoming audit and the Auditor’s contact information were re posted throughout the institution on August 3, 2020. This is the third PREA audit for this facility. Upon arrival at the facility, an in-briefing meeting was held with the Warden, Chief of Security, and Facility PREA Compliance Manager. The standards used for this audit became effective August 20, 2012.

The tour of Arizona State Prison - Marana included the intake processing areas, all housing units, the special housing unit, the health services department, recreation, food service, facility support areas, education, visiting rooms and programming areas. During the tours, it was noted that there was sufficient staffing to ensure a safe environment for inmates and staff.
Signs were posted in English and Spanish that indicated employees of the opposite gender were present in the housing units. Inmates can shower, dress and use the toilet without exposing themselves to employees of the opposite gender. Postings, regarding PREA violation reporting and the agency’s zero-tolerance policy toward sexual abuse and sexual harassment were prominently displayed in all housing units, meeting areas and throughout the facility. Audit notice postings with the PREA auditor's contact information were in the same areas. The auditor did not receive any correspondence from inmate or staff.

A total of twenty two (22) randomly selected correctional staff members were interviewed, to include employees from all three shifts. Lieutenants or Sergeants from all shifts were included in the interview process as part of the specialized staff. All were aware of the agency’s zero-tolerance policy and their responsibilities to protect inmates from sexual abuse/sexual harassment and could explain their new employee and annual PREA training and their duties as first responders as part of a coordinated response. Specialized staff members were also interviewed. This includes MTC Director, MTC PREA Coordinator, the Warden, Facility PREA Compliance Manager, ADC Investigator, and Human Resource Specialist, Intake staff, Medical Administrator, Medical Clinical Director, Training Officer, Retaliation Monitor, three (3) Correctional Program Officers, Chaplain and Chief Security. Arizona Department of Corrections PREA Coordinator was also interviewed. All interviewed staff demonstrated an understanding of the PREA and their responsibilities under this program, relative to their position or roles with the organization and employment status. Also staff from the Sarah House to provide advocacy and emotional support related to sexual abuse which may be used at the inmate's request. The advocacy group indicated they had been contacted to provide advocacy resources, however MOU has not been signed. This was confirmed by the PREA compliance manager.

A total of thirty inmates were selected to be interviewed. The interviewed inmates were of various ages, nationalities and ethnic backgrounds. Inmate random interviewed inmates included inmates housed in every dormitory in each program. The below offenders were determined to be a target population:

There were no inmates in Protective Custody for any PREA related issue.

Based on interviews with offenders is was determined that the offender population had been appropriately educated. The offender were knowledgeable regarding the agencies sexual abuse and sexual harassment response policies. The offenders were able to provide multiple ways of reporting allegations of sexual abuse and sexual harassment. With the exception of the one inmate that was in protective custody all offenders interviewed felt safe within the facility and had confidence in staff’s ability to protect them from and respond to sexual abuse and sexual harassment.

**Investigations**
During the audit period, there was one reported allegation of sexual abuse/sexual harassment. That occurred at this facility. This incident was investigated by ADC Criminal Investigative Unit and was determined to be unfounded.

**Facility Characteristic**

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The inmate housing consists of dormitory style housing units and 4 short term holding cells. Unit I houses four (4) Pods while Unit II houses six (6) pods. Although the dorms are open bay style, the bed areas have half walls to provide more privacy to the inmates living in the pod.

Each dorm unit provides basic furnishings, shower facilities, and common TV areas. All showers and commodes at ASP - Marana have panels, shower curtains and screens to enhance privacy. Located in each dormitory next to all inmate telephone areas are postings of the PREA Report Line and the Rape Crisis Center telephone numbers.

A Control Center monitors all traffic entering and exiting the two housing units as well as the main control room that monitors cameras and controls access to the facility. Numerous cameras control the perimeter and are placed throughout the facility to monitor the security.

Upon arriving at the facility inmates are individually taken to an office for shake down and to be issued clothing. There is a room for inmate’s privacy during the shakedown. There were zero-tolerance posters displayed in the intake area.

New arrivals receive printed information regarding the facility’s PREA program and watch a video that provides additional information about the program. The design of the prison permits inmates to shower, change clothes and use toilet facilities with an adequate degree of privacy and avoid cross-gender viewing.

The Health Services Department contains treatment rooms and dental office. There is a bulletin board that contains PREA information located in the waiting area. There are correctional officers assigned to the health care area, whenever inmates are in this area. The health services program is operated by MTC. The health services program is staffed 24 hours per day, seven days per week. The clinic area is located to provide easy access to the inmate population.

There are recreation areas located on this compound. These recreational areas include an activity center, music rooms, exercise equipment and an outside recreation area.
The Education area contains classrooms and support services. The Education department provides various programs for the inmates, including:

- ABE
- ESL
- GED
- Life Skills - Financial Peace University
- Inside Out Dads
- Life Skills Education
- Substance Abuse Treatment
- Vocational
- NCCER

The vocational area is located inside the secure area of the facility. The vocational is an open bays with no blind spots noted during the facility tour.

The Food Service Department has a dining room with a food service preparation area attached. All areas of food service are under constant surveillance with cameras, mirrors or staff supervision. There are zero-tolerance posters in all food service areas. The food service program at ASP - Marana is managed by Trinity Food Services.

The laundry area had a bulletin board with PREA information including zero-tolerance and PREA audit notices.

The Visitation room is a large seating area with no blind spots noted. It is under supervision of staff whenever offenders visit. There are PREA information located in the visitation room.

Work activity is a very important component of the Marana’s program. It is designed to teach inmates employability skills and help them become accustomed to a work ethic. These programs include inmate work opportunities both inside the prison and outside of the prison on work details. Several outside work crews support the Towns of Marana and Oro Valley Arizona, in areas such as landscaping, water department maintenance, and the Northwest Regional Airport and AZ highway crews. The facility also has agreements with the AZ National Guard, AZ Correctional Industries and Eastern Style Builders to provide inmate work crews.

ASP - Marana is accredited by the American Correctional Association and The Correctional Education Association.

**POLICY AND DOCUMENT REVIEWED:**

Management & Training Corporation (MTC) Policy 903E.02 Sexual Safety in Prisons (PREA)
ADOC Policy - 125 Sexual Offender Reporting
Memo designating MTC PREA Coordinator / MTC organization chart
Memo designating ASP - Marana PREA Compliance Manager / ASP - Marana organization chart
MTC Comprehensive Data FP-3-E2
Staff PREA Cards

Management Training Corporation (MTC) published the agency policy serial # 903E.02, Sexual Safety in Prisons. The policy mandates a zero tolerance toward all forms of sexual abuse and sexual harassment. The policy outlines procedures and expectations related to MTC’s approach to preventing, detecting and responding to sexual abuse and sexual harassment. It is developed in compliance with the PREA standards for adult prisons and jails and includes of prohibited behaviors regarding sexual assault and sexual harassment for staff and inmates.

The policy also included sanctions for staff and inmates found to have participated in prohibited behaviors. Staff members who are found to have perpetrated sexual abuse or sexual harassment are disciplined in accordance to Employee Discipline policy and Facility Rule of Conduct and subject to employment termination. Employees, Contractors and Volunteers are also subject to criminal prosecution.

The policy includes a description of the agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of inmates.

Inmates who are found to have perpetrated sexual abuse or sexual harassment are disciplined in accordance with sanctions outlined in the facility's inmate handbook.
Arizona published ADC Policy - 125 Sexual Offender Reporting with the same requirements as MTC. Each agency has a PREA coordinator that oversees the PREA programs and reports to a high level staff in each agency.

MTC memorandum, warden memorandum and a facility organizational chart meet the requirements of this standard. The agency's zero tolerance against sexual abuse is clearly established and the policy outlines the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. The agency policy and organization chart establishes an upper-level PREA coordinator for the company who has sufficient time and authority to develop, implement, and oversee MTC's efforts to comply with the PREA standards in all MTC operated facilities. The Warden will appoint a PREA Compliance Manager who will be responsible for ensuring all elements of this policy are met in a coordinated, interdisciplinary fashion. ASP - Marana Warden issued a memorandum to establish a PREA compliance manager with responsibility to coordinate with the Agency PREA coordinator to oversee the implementation and management of the Prison Rape Elimination Act.

MTC and ADC policies outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Inmates are informed orally about the zero-tolerance policy and the PREA program during in-processing and additional admission and orientation presentations. The orientation is offered in English and in Spanish. Additional program information is contained in the PREA Handbook, and postings distributed throughout the facility (observed during the tour). All written documents are available in English and Spanish. Additional interpretive services are available for inmates who do not speak or read English. Both institution staff and inmates are provided with a wealth of opportunities to become aware of PREA policies and procedures. All employees receive initial training and annual training, as well as updates throughout the year. The institution meets the standards with all the programs they have implemented to ensure the inmates and staff understand its position on zero-tolerance and how to prevent and intervene in sexual abuse, sexual assaults or sexual harassment. Compliance was determined by review of policies, memorandums, orientation power point presentations, posters, PREA handbook and interviews with staff, contractors, volunteers and inmates.

MTC and ASP - Marana policy and the ADC contracting agreement require the facility to review the staffing plans on an annual basis. Interviews with the Warden and executive staff revealed compliance with PREA and other safety and security issues are always a primary focus when they consider and review their staffing plans. The facility has a Staffing Report that is developed for each pay period. The facility provides a monthly reports that include mandatory posts and hold over staffing to meet the mandatory posts. This report also includes the number of positions authorized, the number filled, the number vacant, recruitment efforts, and any staffing concerns during the pay period. The Warden meets weekly with the executive staff, including the Chief of Security and the Human Resource Manager (HRM) to address staffing issues. The latest staffing plan dated 11/25/2019 includes a total of 106 Full-Time Staff. The facility utilizes Trinity Food Services to provide meals. These staff are not part of the facility’s staffing plan. The facility has established mandatory and mandatory as needed posts. The facility utilizes hold over staff and supervisory staff to cover all mandatory and mandatory as needed posts.

The institution has been provided with all necessary resources to support the programs and procedures to ensure compliance with the PREA standards. The audit included staff interviews and the review of rosters. Supervisory and Administrative staff members routinely make unannounced rounds. These rounds are documented in Unit Logs located in each housing unit. Supervisory staff were noted during the tour of the facility, when moving one part of the facility to another to interview staff and when reviewing cameras in the facility’s central control room.

There have been no judicial findings of inadequacy from federal investigative agencies or findings of inadequacy from internal or external oversight bodies relevant to this standard. When programs are offered, staffing is increased to provide additional supervision.

The review of Institution Duty Officer (IDO) unannounced PREA rounds logs confirmed that intermediate-level or higher-level supervisors, including shift supervisors and department heads, conduct and document such visits throughout the institution, during the day, at night and on the weekends. Additionally, the IDO was interviewed. IDO visits areas of the facility during days, evenings, and weekends. The IDO documents the visits in logbooks located in the housing unit control room. Staff members are prohibited from alerting other employees regarding unannounced rounds. Interviews with inmates and housing unit officers also confirmed that random, unannounced rounds are conducted by Institution Duty Officers daily, including nights and weekends. An examination of policy
and supporting documentation and all interviews confirm compliance with this standard.

Compliance was further determined by staff interviews conducted during the tour of all areas of the facility and interviews with the Chief of Security, Warden, Human Resource Manager and correctional staff; the review of documented staffing rosters; and daily supervisory documentation. A comprehensive tour of the facility was conducted during the audit that included looking for blind spots, reviewing camera coverage, and available staff in areas that inmates are assigned. All areas of the facility were observed while going throughout the facility to meet with staff on the first, second, and third shifts and to interview inmates.

Arizona State Prison - Marana Policy mandates that Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Officers are required to document all cross-gender strip searches and cross-gender visual body cavity searches. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite sex except in exigent circumstances and never for the purpose of examining a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. Staff interviews also confirmed that all officers have been trained to conduct cross-gender pat searches. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The facility allows transgender offenders to determine staff gender for pat searches. The facility does not allow cross gender pat searches accept in emergency situations. In cases when a cross gender pat search occurs staff must document the incident on pat search logbook. The auditor observed that each unit has individual stalls for privacy in utilizing the toilets. The facility has implemented a policy that all opposite gender staff working the units will announce themselves prior to walking the range to allow inmates the opportunity to prepare themselves from a privacy perspective. Control room will document announcement were made and will also make announcement with person of the other gender enter the housing units. Inmates interviewed acknowledged they were allowed to shower, dress and use the toilet without being viewed by staff of the opposite gender. Staff and inmates interviewed indicated employees of the opposite gender announce their presence before entering a housing unit. Unit staff also announce the possibility of opposite gender staff entering the housing units at the beginning of each shift. Additionally, the auditor observed written notifications which clearly stated the possibility of opposite gender staff routinely entering the units posted in the unit common areas. The postings were written in both English and Spanish. Staff members were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of an inmate by a staff member. The living areas have showers with partitions that provides for inmate privacy while showering. Some toilet areas have partitions with door to allow inmates to use the restroom without being viewed by staff. Other bathroom areas have routine doors with a sink. Based on the review of policies, training and notices regarding the presence of female
staff in the units, observation of the showering/dressing areas and interviews with staff and inmates, it has been determined that ASP - Marana meets the expectation of this standard.

Management & Training Corporation (MTC) MTC Policy 903E.02 Sexual Safety in Prisons (PREA) and Arizona Department of Corrections Policy – 704 Inmate Regulations mandates that the facility shall not discriminate against offenders with known disabilities and shall provide reasonable accommodations to ensure access to programs, activities, and services in accordance with the Americans with Disabilities Act and the provisions established in this Directive. The Sexual Abuse Assault Prevention and Intervention Program also establishes local facility to respond to needs of inmates with Disabilities or Limited English Proficiency:
Upon identification of an inmate with a disability which prevents them from reading or understanding inmate PREA educational materials, staff conducting initial intake screenings coordinate with other staff as needed to obtain appropriate accommodations addressing the inmate's disability (i.e. referral to medical as appropriate).

Through policy and practice, the facility staff ensures that inmates with all disabilities listed in 115.16a have an equal opportunity to participate in and benefit from all ASP - Marana of the facilities efforts to prevent, detect and respond to sexual abuse and sexual harassment. The disabled inmates interviewed stated they were instructed about PREA compliance and felt safe from sexual abuse. All PREA related information (written information), including postings, brochures and handouts are available in English, and Spanish. The institution has access to additional languages written material if required. Staff also may read information to inmates when necessary. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistants in the performance of first responder duties or during the investigation of an inmate’s sexual abuse/sexual harassment allegations. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Interviews with over 10 non-English proficient inmates confirmed the availability and use of the staff interpreters and telephonic interpretive services. Interviews with staff and inmates and an examination of policy/supporting documentation also confirm compliance with this standard. The facility also employs staff members who are bi-lingual in languages other than English.

Compliance of this standard was confirmed by review of institutions policies contracting services for language interpretation services and interviews with staff and disabled inmates. The demographics of the offender population includes a large number of Hispanic offenders. Interviews with 10 Hispanic offenders confirmed that there was not a language barrier when needing to communicate with staff. There were over 25 (estimated) bilingual staff available during the audit.

Performance Work Statement
MTC Policy 903E.02 Sexual Safety in Prisons
MTC Standard Operating Procedure
Memo: Background Checks
New Hire Background Checks
Promotions – PREA Questions
Staff Background Checks every Five (5) years

Policy 903E.02 Sexual Safety in Prisons requires all employees, contractors and volunteers have had criminal background checks completed. The background checks are requested by the HR manager and completed by Arizona State Prison - Marana. Selected applicants undergo background checks through the National Criminal Information Center (NCIC). The NCIC check is done on newly hired staff, new volunteers and contractors and then repeated every five years for staff. Volunteers and contractors have background checked annually. Checks are performed by the Arizona Department of Corrections with results sent to the facility by the Arizona Department of Corrections.

The facility does not hire or promote anyone who may have contact with detainees or offenders, and does not enlist the services of any contractor or volunteer that may have contact with detainees or offenders, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force or coercion, or if the victim did not consent or was unable to consent or refuse, or if the person has been civilly or administratively adjudicated to have engaged in the activity. Incidents of sexual harassment are considered in determining whether to hire or promote anyone or to enlist the services of any contractor or volunteer, who may have contact with inmates. MTC Employee Handbook, and MTC Interview Questions mandates that employees, contractors and volunteers are required to receive background check. The HR Manager provided an interview questionnaire entitled PREA Interview Questions that all applicants are asked PREA related questions required by the standards. These applications are maintained in confidential files and made available to the auditor during the on-site audit. The auditor reviewed samples of PREA related questions being documented. The facility staff asked applicants and employees who may have contact with inmates directly about previous misconduct; they use a form to document. The facility also imposes upon employees a continuing affirmative duty to disclose any misconduct related to PREA. MTC policy prohibits
staff from material omissions and the provision of materially false information. This may result in grounds for termination. Interviewed HR staff confirmed that the facility will provide information on employment hired and released dates and other basic information; however, they are prohibited for giving detail information on employee substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer who may request this information. The HR staff advised that the MTC cooperate office is contacted by proposed employers to request any information beyond the basic information provided above. MTC mandates that information is provided based on prevailing laws.

MTC requires the facility not to hire or promote anyone who may have contact with inmates, and does not enlist the services of any contractor who may have contact with inmates as listed in this standard to include the following provisions as stated in the PREA standards:

1. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; to include persons who are mentally ill or disabled or retarded or chronically ill or handicapped, or institution providing skilled nursing or intermediate or long-term care or custodial or immaterial care.

2. Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or

3. Has been civilly or administratively adjudicated to have engaged in the activity described in subsection

Employees, volunteers and contractors have a duty to disclose such misconduct. Material omissions regarding this type of misconduct would be grounds for termination. The submission of false information by any applicant is grounds for not hiring the applicant. The human resource manager confirmed that the agency attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. Interviews with staff and a review of documentation (PREA Screening Form) confirm compliance with this standard. Ten new staff member, five promoted staff and five staff that have over five years tenure personnel files were reviewed and found to have completed background checks prior to employment, promotion or after five years of service. Five contracting staff background checks were also reviewed. Exceeded compliance was determined through reviewing personnel files, company policy, statement of work, and interviews with HR staff and PCM and Warden. The personnel staff maintain up to date spread sheets of every staff, volunteers and contractor, including contractors who are escorted when at the facility.

POLICY AND DOCUMENT REVIEWED:

Management and Training Corporation (MTC) Policy 903E.02 Sexual Safety in Prisons – Physical Plant Diagrams Indicating Camera Placement

Memo of Fact

Management and Training Corporation (MTC) Policy 903E.02 Sexual Safety in Prisons requires that when designing or acquiring any new facility and in planning and substantial expansion or modification of existing facilities, the agency consider the effect of the design, acquisition, expansion, or modification upon the agency’s ability to protect inmates from sexual abuse.

Interviews with the PREA Compliance Manager and Warden indicated that was no major expansion during the past four years. The facility Management Team indicated when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the plan will consider how the technology may enhance the facility’s ability to protect inmates from sexual abuse. of Corrections, Department Order, 608, Criminal Investigations, and ADC Policy 601
Administrative Investigations and Employee Discipline mandate that an administrative and/or
criminal investigation will be completed for all allegations of sexual abuse or sexual
harassment. The Criminal Investigator for Arizona Department of Corrections CIU was
interviewed. He stated that CIU team member would report to the facility following a Criminal
act such as Sexual Assault and would take control of the investigations. Working with local law
enforcement a SANE forensic examination would occur at Tucson Medical Center.

The processes for conducting an investigation described by the investigators was
comprehensive and specific and evidenced the investigators had an excellent knowledge and
ASP - Marana of the investigative process. They indicated that if a staff resigns prior to the
completion of an investigation or if the inmate is transferred to another facility the investigation
process continues. They also described how they would investigate additional five years. The
protocols were reviewed and found to be in line with National Protocol for Sexual Assault
Medical Forensic Examinations. Staff interviewed were very knowledgeable of the evidence
protocols, and could explain the protocol for obtaining useable evidence when an inmate
alleged sexual abuse.

Arizona Department of Corrections Department Order, Sexual Offense Reporting, requires
Wardens to request investigations as outlined in Department Order #608, Criminal
Investigations and provide written notification to the Division Director for Offender Operations
through the appropriate Regional Operations Director when an investigation involving a staff
on inmate sexual assault allegation is opened. Once the criminal investigation is initiated, an
administrative investigation will be initiated as outlined in Department Order # 601,
Administrative Investigations and Employee Discipline. Investigations of inmate sexual
assaults shall be actively pursued and closed upon exhaustion of all evidence processes and
investigative leads. Arizona Department of Corrections Department Order, 608.03, Crime
Scene Preservation, 608.05, Preservation of Biological Evidence and Retention Periods,
provide directions for preserving potential evidence so that it can be collected with no
contamination or degrading of the evidence. These Department Orders also discuss protecting
physical evidence, crime scene investigation and preservation of biological evidence. All the
investigators for the Department have received training in conducting investigations in
confinement settings. An interview with a Criminal Investigations Unit Investigator confirmed
that he has received specialized training including training in a classroom setting as well as on-
line. Criminal Investigators are also certified as Peace Officers and are able to make arrests.
Policy outlines a uniform protocol for collecting and preserving evidence.

This facility provided multiple documents to demonstrate their efforts to secure outside
advocacy emotional support services. There is no doubt they have gone well beyond due diligence to secure those services for the inmates. The facility developed a MOU however it could not be signed by the Southern Arizona Sexual Assault Center. The PREA Compliance Manager then attempted to secure training for staff to serve as victim advocates. An email from the Arizona Coalition to End Sexual and Domestic Violence advised the PREA Compliance Manager to complete a webinar provided by Just Detention International. Documentation was provided by Just Detention International confirming Marana staff completed the webinar, Reaching Behind Bars: Crisis Intervention for Incarcerated Survivors”. The link for advocacy training was provided. The facility also provided a certificate to confirm that a staff completed advocacy training provided by the Arizona Coalition to End Sexual and Domestic Violence, dated June 20, 2020. The facility reached out to Just Detention for training on staff advocacy services and has staff attend a webinar sponsored by Just Detention for advocacy services. The PREA Compliance Manager also provided an email to the Arizona Department of Corrections PREA Coordinator soliciting advice in securing advocacy services. The facility has requested assistance with the Arizona Coalition against Sexual Abuse and the South Arizona Coalitions against Sexual Abuse for providing advocacy Services. The latest attempt was with the Sarah House Advocacy program in Tucson. The auditor called the Sarah House and verified that they had been contacted by the facility. Presently the facility has two trained advocacy staff and the mental health staff would report to the hospital if necessary. The Tucson Medical Center were contacted by the auditor. The staff at the medical center indicated that there were mental health professionals on duty and would assist in the forensic examination by explaining the procedure, providing support to the victim and provide advocacy services as part of the medical center’s SANE protocol.

A review of training records confirmed that the Facility Investigative unit staff have received appropriate investigator training on the investigation of sexual abuse and harassment in a confinement settings. Interviews with staff, local hospital nurse, local rape crisis center advocate and an examination of documentation confirmed compliance with this standard. Correctional and medical staff members were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain usable physical evidence when sexual abuse is alleged. Staff members were also aware of the staff responsible for conducting PREA investigations. Staff carry a First Responder card to provide reminders and expected responses to sexual abuse.

Compliance was determined through review of policy, documentation of training records, and request for a MOU with advocacy program and SANE staff and interviews with ASP - Marana staff. Further compliance was determined by sexual abuse investigation in 2019 - 2020.

MTC 903E.02 - Sexual Safety in Prisons (PREA) PREA Posters (English and Spanish); Offender handbook; and Offender Orientation Training establishes the standard required training. Inmates receive information during the intake process that includes a PREA handout and Offender Handbook, printed in both English and Spanish. There are PREA posters throughout the facility and in each housing unit, and a PREA "Report Line" telephone which may be called to report sexual abuse or sexual harassment, is posted on the unit bulletin boards. There is an interpretive language service available for limited English proficient inmates. A review of A&O Checklists verified that inmates received Sexual Assault/Sexual Abuse Prevention & Intervention education and relevant written materials. All inmates are required to acknowledge in writing they have received PREA education. A staff member conducts an additional education program regarding the PREA for all inmates within 30 days of their arrival at the facility. If an inmate is transferred to another facility, policy requires that this training process be repeated at the new institution, as confirmed through interviews with newly arrived inmates. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities.

There is a translation language line available to LEP inmates. Hispanic translations are provided by ASP - Marana bilingual staff. The auditor was provided a random sampling of 15 A&O Checklists/Signature Sheets to verify that inmates received the sexual abuse and sexual harassment (PREA) education and relevant written materials. All inmates are required to acknowledge completion of PREA education. During the interview process, randomly selected inmates indicated they received information about the facility’s rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment and their right not be punished for reporting sexual abuse/sexual harassment. Inmate and staff confirmed compliance that PREA training is provided during the initial intake at the facility and during the orientation phase which occurs within one week of arriving at the facility. Inmates were aware of available services outside of the facility for dealing with sexual abuse.

Specialized Training Certificates

MTC 903E.02 - Sexual Safety in Prisons requires that when administrative investigations are conducted by the facility it will be conducted by trained staff who are full-time employees at the facility or other MTC facilities. When investigators from outside the facility conducts investigation the facility will request that investigator are trained sexual assault investigators. At ASP - Marana investigations are conducted by investigator from ADC Criminal Investigative Unit. These staff have completed Arizona Law Enforcement investigative training that includes all mandates of this standard. Certificates, documenting that each of the investigators completed the NIC On-Line Training, “PREA: Investigating Sexual Abuse in a Confinement Setting” were provided and reviewed. An interview with a Criminal Investigations Unit Investigator confirmed he is certified as a Peace Officer and has completed the comprehensive training associated with that. Additionally, he related he completed the NIC On-Line Specialized Training, “PREA: Investigating Sexual Abuse in a Confinement Setting”. The investigator was very knowledgeable of the investigation process.

The auditor reviewed specialized training documentation to include the Investigator Training Instructor Guide and the course completion list for Investigating Sexual Abuse in a Confinement Setting. ASP - Marana staff have received training from NIC. Staff certifications and an examination of policy and training curriculum confirmed exceeded compliance with this standard.

MTC 903E.02 - Sexual Safety in Prisons mandates specialized training for medical and mental health staff. The facility has full-time medical care staff and full time mental health staff on site. All mental health and medical staff have received the required specialized training on how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment, victim identification, interviewing, reporting and clinical interventions. Medical acknowledged, in writing, that they both received and understood the training, as it relates to the PREA. Interviews with medical staff confirmed awareness of their responsibilities regarding the PREA specialized training medical and mental health staff have attended during the last 12 months. Medical staff interviewed were extremely knowledgeable of sexual abuse and sexual harassment and responses to reporting and identifying sexual abuse or sexual harassment. The warden provided a memo of fact that all medical and mental health practitioners have received specialized training. Compliance was determined by review of training curriculum for mental health and medical staff, and interviews with the medical administrator and Mental Health Director.

POLICY AND DOCUMENT REVIEWED:

MTC Policy, 903E.02, Ensuring Safe Prisons, Referral and Case Assignment
Intake Screening Form re: Risk of Sexual Victimization & Abusiveness (MTC)
Intake Screening Form re: Medical Mental Health Screen: Additional Data

MTC Policy, 903E.02, Ensuring Safe Prisons, requires inmates to be screened within 72 hours of arrival at the facility and reassessed within 30 days after the inmate’s arrival, for potential vulnerabilities or tendencies for acting out with sexually aggressive behavior. Inmates will be reassessed thereafter due to a referral, request, and incidents of sexual abuse or receipt of additional information that bears upon an inmate’s risk for sexual abuse or receipt of additional information that bears upon an inmate’s risk of sexual victimization. The screening normally occurs within twenty-four hours, but no more than seventy-two hours after the inmate's arrival. Policies and procedures require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at high risk of being sexually abusive. Medical staff conducts an initial medical screening including questions of prior sexual abuse. Agency Directives require within the first 30 days of arriving at the facility, review any additional information that has been received, overall adjustment to the facility and for job placement. The PREA compliance manager or the Supervising Program Manager conducts these rescreening. Agency and Facility policy mandates that screening is only available to staff on a need-to-know basis. Agency policy prohibits inmates from being disciplined for refusing to
answer or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status.

The Warden has memorized the system for new arrivals by memo dated June 19, 2019 “PREA Screening of Inmates-New Admissions/Transfers”. Procedures described include the following:

1) Following intake all inmates will be sent to medical for screening, including PREA related screening; 2) Inmate’s disclosing information about previous sexual abuse/harassment will require immediate notification to the shift commander; 3) The inmate will be referred for follow-up to mental health for evaluation within 14 days from the date of arrival; 4) Correctional Programs Officers (CPO) will complete the full screening document within 72 hours of arrival, reviewing among other documents, the AIMS information. If the CPO finds that the inmate is at risk of victimization or is potentially at risk of abusiveness, the CPO will immediately notify the shift commander; 5) The correctional program manager will consider the need for any programming adjustments based upon reviews; 6) The shift commander will determine if the inmate needs to be placed in restricted housing pending further evaluation/mental health review. The inmates, who are determine by the shift commander to be ready for placement will be assigned appropriate housing; 7) Based upon any additional relevant information received by the facility since the intake screening, the facility CPO will reassess each inmate’s risk of victimization or abusiveness within 30 days after the inmate’s arrival at the facility or within 7 days if the information is received more than 30 days after the inmate’s arrival; 8) The Correctional Program Manager will be responsible, by the 10th of the next month, for advising the PREA Compliance Manager on a monthly basis of the number of reassessments that were completed the previous month; 9) An inmate’s risk level will be reassessed when warranted due to a referral, request, incident of sexual abuse or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness and 10) Inmates may not be disciplined for refusing to answer the questions on the screening document.

A review of 15 initial and rescreening instruments revealed that all inmates were screened and rescreened as required by standards.

The Screening for Risk of Victimization and Abusiveness include the following:

- Whether the inmate has a mental, physical, or developmental disability;
- The age of the inmate;
- The physical build of the inmate;
- Whether the inmate has previously been incarcerated;
- Whether the inmates’ criminal history is exclusively nonviolent;
- Whether the inmate has prior convictions for sex offenses against an adult or child;
- Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
- Whether the inmate has previously experienced sexual victimization;
- The inmate’s own perception of vulnerability; and
- Whether the inmate is detained solely for civil immigration purposes.
Compliance was determined by review of the screening instrument, review of inmate records with screening and rescreening instrument, review of company inmate data to manage screening instruments. Compliance was further determined by interviews with Supervising Program Manager, inmates, and medical staff.

MTC Policy 903E.02 - Sexual Safety in Prisons (PREA) - Pg. 1, 12 A, B, C
Risk Screening
Federal Risk Screening
Inmate Cell Assignment Screening
Memo re: Transgender & Intersex Inmates

Arizona State Prison - Marana Classification Plan provides that risk screening information is used to determine housing, bed, work, and education and program assignments, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. Staff members assigned to conduct intake screening have been provided additional training and resource materials to complete this task. ASP - Marana houses inmates on behalf of the Arizona Department of Corrections. ADC Policy mandates that the Department does not place lesbian, gay, bisexual, transgender or intersex inmates in dedicated facilities, units, or wings solely based on such identification or status. The ADC individually considers the management and placement of transgender or intersex inmates. Considerations on a case-by-case basis include the inmate’s health and safety, operational management, security, and mental health needs. Serious consideration is given to the inmate’s views regarding safety. Placement and programming assignments for each transgender or intersex inmate must be reassessed using processes outlined in Gender Dysphoria: Healthcare for Inmates and, where relevant, under the inmate’s treatment plan has no dedicated facilities for transgender or intersex inmates. The facility determines other housing and programming assignments for transgender or intersex inmates on a case-by-case basis, to include whether a placement would ensure the inmate’s health and safety and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex inmate are reassessed at least once every six months. Policy states that a transgender or intersex inmate’s own view with respect to his own safety should be given serious consideration when making these assignments. ASP - Marana policy mandates that transgender and intersex inmates are given the opportunity to shower, dress and use the toilet facilities separately from other inmates. The warden by memo has designated a shower for transgender or intersex inmates to shower and use the toilet. This area was reviewed by the auditor during the tour. The facility maintains an at-risk log for all inmates who are subject
to victimization or predators self and works closely with the CPOs to address their needs as they arrive.

The interview with the ADC and MTC PREA Coordinator confirmed that a transgender inmate’s genital status is not the sole criterion for placement in a specific facility. Interviews with staff and inmates, observations of housing assignments and unit activities, as well as an examination of documentation/policy, confirm that the facility is in compliance with this standard. Further compliance was determined by interviews with the Agency PREA Coordinator, ADC PREA Coordinator, the Case Manager Supervisor, and the PCM.

POLICY AND DOCUMENT REVIEWED:

MTC 903E.02 - Sexual Safety in Prisons (PREA) - Pg. 1, 12
Memo of Fact
Agency Protection Duties, requires that when MTC learns that an inmate is subject to a substantial risk of imminent sexual abuse, MTC requires immediate action to protect the inmates (i.e. it takes some action to assess appropriate protective measure without unreasonable delay).

The Administrative Segregation Unit houses both administrative (protective custody) and disciplinary cases. Policy states inmates at high risk for sexual victimization shall not be placed in involuntary status unless an assessment of all available alternatives has been made and there is no available means of separating the victim from the abuser. Offenders may be placed in protective custody for less than 24 hours during an investigation of sexual abuse. There were no inmate housed in the administrative segregation unit pending initial investigation.

Compliance was determined through review of policy, segregation logs, and interviews with Warden, PREA compliance manager and RHU supervisor.

All staff will accept reports made verbally, in writing, anonymously, and from third parties. Staff will promptly document any verbal reports, and will immediately report any such information to the shift supervisor. A review of supportive documentation and staff/inmate interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately, and from a third party) for inmates to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. Throughout the facility, there are posters and other documents on display which also explain reporting methods. There are posters for telephone reporting to institutional hotline or the Rape Crisis Center private reporting sexual harassment and sexual abuse.

Arizona Department of Corrections, Department Order, 125, Sexual Offense Reporting, instructs an inmate who is sexually assaulted to report it to a staff member. The same policy requires inmates who observe, are involved in or have knowledge of a sexual assault shall immediately report their observation to a staff member. It also Staff members promptly accept and document all verbal, written, anonymous, and private and third-party reports of alleged abuse/sexual harassment. ASP - Marana provides to the inmates a third party line to the National Sexual Assault hotline for reporting any abuse or harassment and they can write to the Office of the Inspector General Office. Inmates at the facility are not detained solely for civil immigration purposes.

Interviews with the Warden, PREA Compliance Manager, randomly selected staff and specialized staff indicated inmates can make reports in the following ways: 1) Using the Inmate Phone System (phone calls go to Century Link, who forwards the calls to the Office of the Inspector General, after which the DOC CIU Investigator, receives an email to investigate the allegations); 2) Write the Inspector General (address provided); 3) Anonymously; 4) Write the Warden and drop it in his box; 5) Write the Contract Monitors and drop a note in their box; 6) Report via the Website; 7) Report in privacy at the Lieutenant’s Office; 8) Report to a family member; 9) Report to the Warden when he is walking about or 10) Talk to the Warden at the Warden’s “Town Hall” meetings with inmates.

Compliance of this standard was validated by review of the inmate handbook, posters throughout the facility, testing the telephone, company policies on inmate reporting sexual abuse or sexual harassment and interviews with staff and inmates.

Additionally, policy also prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse/sexual harassment. Policy also addresses the filing of emergency administrative remedy requests. If an inmate files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response. There is no prohibition that limits third parties, including fellow inmates, staff members, family members, attorneys and outside victim advocates in assisting inmates in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of inmates. There was one grievances filed involving PREA related issues during the past 12 months. Inmates can file a grievance through MTC grievance officer or Arizona Department of Corrections. ADC Policy DO - 125 Sexual Offender Reporting  
Arizona Department of Corrections – 801 Classification  
ASP - Marana Screening Instrument

MTC 903E.02 -Sexual Safety in Prisons addresses the mandate of this standard. If staff learns that an inmate may be at substantial risk of imminent sexual abuse, immediate action will be taken to protect the inmate. This may include a change in housing and notification to psychology, chief of security, and investigative staff. Interviewed staff members were aware of their duties and responsibilities when they become aware or suspect an inmate is being or has been sexually abused or sexually harassed. All staff indicated they would act immediately to protect the victim, to include separating the victim/predator, securing the scene to protect possible evidence, preventing the destruction of potential evidence and contacting the shift supervisor and medical staff. Staff carry PREA information cards which includes what to do if
staff members determine that an inmate in responding to inmate protection if he was subject to a substantial risk of imminent sexual abuse.

Staff, in their interviews, related in the event an inmate reported they were subject to a substantial risk of imminent sexual abuse, said they would immediately ensure the inmate was removed from the threat until a decision could be made concerning where the inmate could be placed to stay safe. Most stated the inmate would probably be placed in protective custody/administrative restrictive housing until the supervisors could investigate and determine where to house the inmate. The Warden, in an interview, related the inmate would be removed from that threat and placed in protective custody until an investigation could be conducted. Other options could be to transfer the inmate(s) posing the threat or transferring the inmate who does not feel safe in this facility. If an inmate was placed in protective custody, he would be given access to programming insofar as possible and if a privilege was denied, the reasons would be documented. In the past 12 months there was no instance in which non-correctional officers or correctional staff were made aware of an offender being sexual abuse or harassed. Interviews with the inmate and staff confirmed that facility staff protect the inmate victim and separate victim from the alleged predator.

ASP - Marana Coordinator Response Plan address the mandates of this standard. The policy specifies the guidelines and procedures that prevent sexual abuse/sexual assault and provide for prompt and effective intervention, in the event a case of abuse or assault occurs. Correctional staff carry a card that provides guideline for first responder or coordinated responses to sexual abuse. The policy also includes procedures for the Reporting, Protecting, Physical care, Psychological Crisis intervention, Crime Scene Preservation, and After Action Review. Four random non-correctional staff were interviewed regarding first responder reporting. All indicated they would notify the shift supervisor or correctional officer in their vicinity and would remain with the alleging offender until correctional staff arrived.

Psychology or Medical staff will attempt to make a victim advocate available through the use of a local rape crisis center. MTC 903E.02 - Sexual Safety in Prisons (PREA)
Collective Bargaining

Management and Training Corporation (MTC) Policy 903E.02 Sexual Safety in Prisons mandates that any collective bargaining agreement or other agreement must comply with PREA standards dated August 20, 2012. The facility has no collective bargaining agreements. MTC Policy, 903E-02, Ensuring Safe Prisons, provides that when an inmate alleges sexual abuse or sexual harassment by a staff member, a no-contact assignment will be imposed during the investigation. Depending on the severity of the allegations, the staff member may be placed on administrative leave pending the outcome of the investigation. If the allegations are determined to be unsubstantiated, the no-contact assignment will be removed. Policy mandates employees are subject to administrative action, up to and including termination, for any inappropriate contact or relationship with inmates, regardless of whether such contact constitutes a prosecutable crime. Physical contact is not required to subject an employee to sanctions for sexual misconduct. All terminations for violations of sexual abuse/sexual harassment or resignations by staff, facility contractors, and/or inmate volunteers who would have been terminated if not for their resignation, shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. The Warden and Human Resource Manager were interviewed and verified information provided during the Pre- Audit Questionnaire. There were no incidents requiring protection for inmates from staff during the last 12 months. Compliance was confirmed through review of the policy and interviews with administrative staff.

MTC 903E.02 - Sexual safety in Prisons (PREA)
Retaliation Posters
Memo of Fact

MTC Policy 903E.02, Ensuring Safe Prisons, 28. Preservation of Ability to Protect Inmates from Contact with Abusers, a) through c), states MTC protects all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff. Policy also requires MTC to designate staff members or charges departments to monitor for possible retaliation. The facility will employ multiple protection measures such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims and emotional support services will be offered for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

Arizona Department of Corrections Department Order, 125, Sexual Offense Reporting 1.4, Retaliation, prohibits retaliation against inmates or staff by other inmates or staff for reporting staff sexual conduct or harassment and inmate on inmate sexual assaults. All reports or allegations of retaliation are required to be investigated and if the allegations are proven the staff/inmate will be disciplined.
A PREA Monitoring Retaliation Form was provided for review. The form contains the requirements for PREA Monitoring including the following: “For at least 90 days following a report of sexual abuse or sexual harassment, the agency shall monitor the conduct and treatment of inmates and staff who reported the sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation. Items the agency should monitor include any negative performance reviews or reassignments of staff. The agency continues to monitor for retaliation beyond 90 days if the initial monitoring indicates a continuing need and an agency’s obligation to monitor shall terminate if the agency determines that the allegation is unfounded. Space is provided for documenting the date, time and location of the interview with the staff or inmate who might experience retaliation. Comments are provided as needed. Blocks below the comments section provide the monitor with items to be reviewing. These included: Disciplinary Reports, Housing Changes, Program Changes, Negative Performance Review and Reassignment. Immediate steps to remedy the situation are to be provided as indicated.

The interviewed retaliation monitor related the facility has a zero tolerance for any form of retaliation for reporting or making an allegation of sexual abuse or sexual harassment or for cooperating with an investigation. Once an allegation of sexual abuse or sexual harassment is made, the retaliation monitor contacts the alleged victim to inform them of the monitoring process and how to contact the monitor if needed. The monitor related the following things could be monitored if the retaliation involved an inmate: disciplinary reports, housing changes, work assignment changes or other movement changes. If the retaliation involved a staff, shift changes and performance appraisals might be monitored. Monitoring would last for 30, 60 and 90 days and even beyond if necessary. The retaliation monitor described a process consistent with the PREA Standards.

There have been no allegations of retaliation during the past twelve months because there have been no allegations of either sexual abuse or sexual harassment. Compliance was determined by a review of agency policy and accompanying forms, Posters noted throughout the facility. Also compliance was determined by interviews with the Retaliation Monitor, Arizona Department of Corrections PREA Coordinator, Warden, IPCM, and an Inmate who had been monitored by the Retaliation Monitor.

MTC Policy 903E-02, Ensuring Safe Prisons
ADC Policy DO - 125 Sexual Offender Reporting
ADC Policy 601 Administrative Investigations and Employee Discipline
ADC Policy 608 Criminal Investigations
Memo of Fact
MTC Policy 903E-02, Ensuring Safe Prisons provides guidance for investigation of all allegations of sexual abuse or sexual harassment. An administrative and/or criminal investigation will be completed for all allegations of sexual abuse or sexual harassment. The initial investigation will begin immediately by correctional staff, normally Captain, to ensure preservation of physical and/or circumstantial evidence. ADC Policy DO - 125 Sexual Offender reporting will conduct the investigations on all allegations of sexual abuse or sexual harassment. Administrative Investigations will include an effort to determine whether staff actions or failures to act contributed to the abuse and will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessment, and investigative facts and findings.

Criminal investigations will be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal will be referred for prosecution.

Department Order 601, Administrative Investigations and Employee Discipline establishes procedures for conducting investigations of misconduct by employees, for temporary reassignment of an employee during an investigation and for review and disposition of completed investigations by approving authorities. Department Order 608, Criminal Investigations requires, that when a unit initially reports an assault in a Significant Incident Report and it is subsequently discovered through further investigation by Criminal Investigation Unit (CIU) investigators to have the elements of sexual assault/abuse, the Central Office Communications Center is notified by CIU to change or update the SIR to reflect sexual abuse. Arizona Department of Corrections Department Order, 125, Sexual Offense Reporting, requires upon becoming aware of an allegation or actual sexual assault incident, the shift commander is required to initiate the ICS and consult with the Criminal Investigations Unit. The Criminal Investigations Unit is responsible for conducting investigations of a criminal nature. Investigators in this unit have received specialized training in conducting sexual abuse investigations in confinement settings. CIU Investigators have also completed the required Peace Officer Standards Training and have arrest powers. Following an investigation, a person found to have engaged in unlawful sexual conduct with an inmate or offender is subject to disciplinary action including dismissal and may be referred for criminal prosecution. Inmates who sexually assault another inmate are subject to disciplinary action as outlined in Inmate Disciplinary Procedures or referred for criminal prosecution.

An interview with a Criminal Investigations Unit Investigator and a Facility Investigator confirmed a thorough investigative process. The investigation would begin as quickly as possible following notification and would include collecting evidence such as clothing, sheets, photos and any biological or other forensic evidence. Staff and inmate interviews would be conducted and any applicable video footage would be reviewed. The departure of an alleged abuser or victim from the employment or control of MTC does not provide basis for terminating an investigation. During there were there were three incident of sexual abuse or sexual harassment that were reviewed. Two of the incidents were from inmates that made allegations when arriving at ASP - Marana and one was an allegation of sexual harassment. The two
allegations from arrive inmates were determined unsubstantiated and the one allegation of sexual harassment was unfounded.

When the quality of evidence appears to support a criminal prosecution, compelled interviews will be conducted only after consulting with prosecuting attorneys to determine whether compelled interviews may be an obstacle for subsequent criminal prosecution.

The credibility of an alleged victim, suspect, or witness will be assessed on an individual basis and will not be determined by the person's status as inmate or staff. Inmates who allege sexual abuse will not be submitted to a polygraph examination or other truth-telling device as a condition for proceeding with an investigation.

ASP - Marana maintains data collection, reviews, and storage in accordance with PREA standards.

POLICY AND DOCUMENT REVIEWED:

ADC Policy DO - 125 Sexual Offender Reporting
Arizona Department of Correctional Policy 903 Sex Abuse Education and Treatment Program

The Offender Handbook address the mandates of this standard. Information on inmate disciplinary sanctions is provided as part of the orientation process upon entry into the facility. Inmates interviewed indicated a good understanding of their freedom to make allegations without consequences for making good faith allegations. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate’s disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories.

Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program. The disciplinary process considers whether an inmate’s mental disabilities or mental illness contributed to the inmate’s behavior when determining what type of sanction, if any, should be imposed. Prior to disciplinary hearing mental health staff access the above information. The facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. The institution does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. There were no disciplinary actions regarding PREA violations. Compliance with this standard was determined by a review of policy/documentation and the inmate discipline process, as well as staff and inmate interviews.

MTC 903E.02 - Sexual Safety in Prisons and Intake Screening mandates inmates who disclosed prior victimization during screening are offered a follow-up meeting with a medical or mental health practitioner. Additionally, inmates who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow-up meeting with a mental health practitioner. Treatment services are offered without financial cost to the inmate. This was confirmed by observation and a review of intake screening documents. Screening for prior sexual victimization in any setting is conducted by PREA compliance team staff during in-processing procedures. In-processing procedures also screen for previous sexually assaultive behavior in an institutional setting or in the community. During the intake process a medical provider separately interview the incoming inmate. During this process follow-up meetings with inmate that have history of sexual abuse or are identified as a sexual predator or scheduled. When requested staff members ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for treatment plans, security, housing, work, program assignments and management decisions. Signed and dated informed consents are obtained from inmates before reporting prior sexual victimization which did not occur in an institutional setting.
The institution does not house inmates under the age of 18. All screenings are recorded in the Medical and Mental Health inmate records. All information is handled confidentially and interviews with intake screening staff support a finding that the facility is in compliance with this standard. Compliance was confirmed by a review of policies and intake screening documents, mental health referrals and Mental Health appointment notes as well as interviews with three (3) inmates who self-identified as having experienced prior victimization during intake and four (4) inmate who identifies as gay. Compliance was also determined by review of the screening instrument, interviews with inmates, and Medical Administrator and Mental Health Provider.

This is the third PREA audit of this facility. The last PREA audit was in March 2017. The auditor was allowed access to all areas of the facility and had access to all required supporting documentation. The auditor was able to conduct private interviews with both inmates and staff. All Texas facilities have received at least one PREA audit since August 20, 2012. This audit was scheduled to be completed in June 2020 and was rescheduled on four occasion in response to Cova 19 virus. The auditor was provided supporting documentation before and during the audit. Notifications of the audit (posted throughout the facility) allowed inmates to send confidential letters to the auditor prior to the audit. No pieces of correspondences from an inmates or staff were received by the auditor.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
The institution has fully implemented all policies, practices and procedures outlined in the PREA standards. The auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff and inmates and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. The agency and facility’s leadership are fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the recommendations for enhanced supervision techniques. Substantiated allegations of abuse are processed in accordance with the standards, to include incident reviews, disciplinary actions, if required, and outcome notifications.

PREA training for staff and inmates is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical, mental health, and sexual abuse intervention and support networks for the inmates are established in the community. The public has access to reporting mechanisms and PREA trends data via the website. Arizona State Prison - Marana currently meets all applicable PREA standards.
