## PREA AUDIT REPORT

**ADULT PRISONS & JAILS**

**Date of report:** 06-29-2017

### Auditor Information

**Auditor name:** David “Will” Weir  
**Address:**  
**Email:**  
**Telephone number:**

### Date of facility visit:

May 16 & 17, 2017

### Facility Information

**Facility name:** Arizona State Prison Complex - Winslow  
**Facility physical address:** 2100 South Highway 87; Winslow, Arizona 86047  
**Facility mailing address:** (if different from above) P. O. Box 3240; St. Johns, Arizona 85936  
**Facility telephone number:** 928-289-9551

### The facility is:

- [ ] Federal  
- X State  
- [ ] County  
- [ ] Military  
- [ ] Municipal  
- [ ] Private for profit  
- [ ] Private not for profit

### Facility type:

- X Prison  
- [ ] Jail

**Name of facility’s Chief Executive Officer:** Warden Berry Larson

**Number of staff assigned to the facility in the last 12 months:** 405

### Designed facility capacity:

1893

### Current population of facility:

1472

### Facility security levels/inmate custody levels:

Minimum, Medium, Close, Complex Detention Unit

### Age range of the population:

18-68

### Name of PREA Compliance Manager:

Holly Morales  
**Title:** Correctional Officer IV  
**Email address:** hmorales@azcorrections.gov  
**Telephone number:** 928-289-9551

### Agency Information

**Name of agency:** Arizona Department of Corrections

**Governing authority or parent agency:** (if applicable) Click here to enter text.

**Physical address:** 1601 W. Jefferson; Phoenix, Arizona 85007

**Mailing address:** (if different from above) Click here to enter text.

**Telephone number:** 602-542-5497

### Agency Chief Executive Officer

**Name:** Charles L. Ryan  
**Title:** Director  
**Email address:** CRYAN@azcorrections.gov  
**Telephone number:** 602-542-5225

### Agency-Wide PREA Coordinator

**Name:** Michael McCarville  
**Title:** Auditor 3; PREA Coordinator  
**Email address:** MMCCARVI@azcorrections.gov  
**Telephone number:** 602-771-5798
AUDIT FINDINGS

NARRATIVE

PREA America LLC was retained February 21, 2017 to conduct the Prison Rape Elimination Act (PREA) Audit for Arizona State Prison Complex – Winslow. The process was started and dates were agreed upon. Notices went up at the facility by April 3, 2017. The Pre-Audit Questionnaire, completed digitally, and accompanied with documents on a flash drive, completed and collected by PREA Coordinator Michael McCarville and PREA Compliance Manager Holly Morales were received by the auditor by May 2. In the weeks leading up to the onsite audit, Auditor Weir and Mr. McCarville exchanged emails and phone calls to clarify and better understand the materials provided. Materials included policies, logs, memos, reports, reviews, rosters, directives, postings, curriculum, and other guidance, evidence, and verifications, as needed, addressing each specific standard. The auditor also reviewed information available through on-line sources, and contacted community providers directly.

On May 16, 2017, the PREA America audit team, consisting of PREA Auditor Will Weir and Project Manager Tom Kovach arrived at the facility and participated in an introductory meeting with Warden Berry Larson, PREA Compliance Manager Holly Morales and agency PREA Coordinator Michael McCarville. The audit team had been provided with staff and inmate rosters and made random selections for interviews. A total of 31 staff and administrators were interviewed representing all shifts and housing units. This includes 20 line staff, 10 specialty staff and the warden.

29 inmates were seen by the audit team. Although the audit team met with each inmate who was randomly selected for interview, several inmates declined to be interviewed, brought other inmate(s) with them as witnesses, or gave very limited information, answering very few questions. They explained that the interviews were being conducted in the same offices where the gang task force meets with inmates and where other interviews are held that involves inmates snitching on other inmates or otherwise getting into trouble. Although a few inmates did not talk at all with the audit team except to state that they refused to be interviewed, all the others at least explained that although threats and violence sometimes occur at the facility, sexual violence is not allowed as per the inmate code. Once the problem: with the location of interviews was confirmed, the location was changed and interviews went somewhat more smoothly. Inmates interviewed included some individuals who indicated recognized risk factors for vulnerability to abuse such as LGBTI status or perceived status, prior sexual victimization, and/or disability. Random selections were also made so as to include inmates from all identified racial/ethnic groups and from each housing unit.

The in-depth interview with Criminal Investigations Supervisor was particularly helpful to the audit team. He explained protocols, procedures, and challenges at the facility along with extensive efforts to improve and keep inmates safe. He also actively participated in the exit conference, assisting with the overview of the audit and the circumstances at the facility relating to PREA. An important part of their safety net is the use of voluntary segregation and protection. He states they try to provide this intense level of protection immediately to all inmates who express legitimate concerns regarding their safety. Then they do a review to see if other options are available such as moving an inmate to a different yard or taking actions against perpetrators. In addition, there are Intelligence meetings weekly, and there are various meetings with the warden and others who can shed light and act to increase safety and improve facility responses. He believes their efforts are effective, although progress can be slow and new concerns can develop. But it should be stated that Investigator, as well as other staff, report that inmates rarely express concerns about their sexual safety. These voluntary protections utilized by inmates are usually regarding stated concerns about issues not directly related to risk of sexual abuse. Although the numbers are small, some inmates allegedly targeted by other inmates for non-sexual intimidation, are in categories identified by PREA to be at increased risk for sexual abuse, such as those perceived to be gay, transgender, mentally ill, disabled and/or racial minorities. It should also be noted that although inmates and staff generally agree that the staff at the facility try very hard, with sincerity, to keep everyone safe, it is far from ideal. It would be helpful to have more staff and more programming. Although inmates sign paperwork to go into voluntary protective segregation, they don’t feel they had many choices available to them.

The audit team was given a general, big picture, tour of the facility early in the audit, then a more detailed tour as they went to each unit to interview inmates and staff. An exit conference was held at the conclusion of the on-site audit on May 17 and was attended by the audit team and ADC PREA Coordinator Michael McCarville. Warden Berry Larson, CIU Supervisor, PREA Compliance Manager Holly Morales, Correctional Officer IV, Deputy Warden, Deputy Warden, Assistant Deputy Warden, and Deputy Warden. The audit team expressed gratitude for the excellent organizational skills of Mr. McCarville and Ms. Morales who provided the required information in an easy reference format allowing for a very smooth and orderly pre-audit and desk audit process well in advance of the on-site audit. A facility of this size requires a great deal of documentation review to get the team up to speed and ready for the onsite work, making these efforts particularly valuable. The audit team reported general impressions gained during the audit process. Inmates in minimum security typically reported that the yard has the feel of a “halfway home.” “There’s no drugs or drama.” It’s a “job yard.” Staff “take care of things.” There is general agreement that inmates take care of themselves and focus on positive goals, yet staff are “on everything” and take safety seriously. Even on the yards with higher levels of custody, staff are respected. Correctional Officers are seen as being generally trustworthy and honoring confidentiality. Guards honor privacy when needed, such as during certain visits with attorneys and family members, and CO’s recognize the complexity of the plight of inmates. For example, when they lock down a yard, or conduct investigations, they do so in such a way that protects inmates who might be targets or witnesses. Facility strengths include well worded PREA policies and the provision of good consistent PREA training for both staff and inmates. Excellent work is being done monitoring for retaliation after allegations are made, and keeping sensitive information.
confidential. Although the facility showed compliance with all the PREA standards, it can be noted that they do not want to just meet minimum levels of compliance, so they are increasing efforts to make sure first responder duties are better and more fully understood, along with the availability of advocacy services. They have redoubled efforts to have all employee 5 year background checks completed more quickly and are increasing the level of detail provided in investigative documentation.

Documentation reviewed includes: Pre-Audit Questionnaire; Rosters of staff and inmates; ADC Chapter 100 Agency Administration Department Order 106 Contract Beds, and Order 108 Americans with Disabilities Act Compliance, and Order 125 Sexual Offense Reporting Policy (with Attachments A & B); Sexual Assault Procedures List; Organizational Charts; Contracts; ADC Chapter 600 Inspector General Department Order 601 Administrative Investigations and Employee Discipline, Order 602 Background Investigations, Order 603 Polygraph Services, Order 606 regarding Internal Inspections Program, and Order 608 Criminal Investigations; Mission Statement; Annual Report; Mental Health Assessment Form; sample of Shared Medical Information; Consent Forms; Sample of Secondary Mental Health Forms; Incident documentation; Investigative Reports; Sexual Incident Reviews; and DOJ Survey of Sexual Violence.
DESCRIPTION OF FACILITY CHARACTERISTICS

It is the mission of the Arizona Department of Corrections "To serve and protect the people of Arizona by securely incarcerating convicted felons, providing structured programming designed to support inmate accountability, successful community reintegration, and providing effective supervision for those offenders conditionally released from prison".

The Arizona State Prison Complex-Winslow is a multi-site facility operated by the Arizona Department of Corrections (ADC). Three separate units are included in the Complex. Kaibab and Coronado are on the main campus and Apache is at a remote location. APSC-Winslow is situated adjacent to State Highway 87, and is located three miles south of the city of Winslow and is the first prison to be constructed in Northern Arizona. Ground-breaking for the facility occurred in 1985 followed by construction in 1986 through 1990. Originally designed as a 650 bed minimum/medium security facility, the prison went under design changes and construction additions to meet the demands for inmate beds. The Apache Unit was added to the Winslow Complex in 1995 and is located midway between Springerville and St. Johns in Apache County, Arizona.

The ASPC Units descriptions are as follows:

Kaibab Unit: This unit houses 2 different custody levels. This unit also houses the main medical facility for the Complex. North unit is a medium custody yard with a cell environment. South unit is a close custody yard. The inmates are assigned to various jobs to support and maintain the unit such as; cleaning porter, laundry porter, inmate barbers education aides and tutors. Education includes: Mandatory Literacy, GED Preparation, Work Based Education: Construction Technology, Computer Technology and numerous self-improvements: Responsible Thinking, Self-Control, Social Values, Core Skills, Feelings, Socialization, Substance Abuse, Conflict Resolution, AA, Cognitive Restructuring, Re-Entry, Orientation.

Coronado Unit: This unit is a minimum custody in an open dorm setting. Education consists of: Mandatory Literacy, GED Preparation, Work Based Education: Administrative Information Systems. Programing includes: Re-Entry Merging Two Worlds, Cognitive Restructuring/Thinking for a Change, AA, Domestic Violence, Cultural Diversity, Money Management. Inmates at this unit are assigned to various jobs to support and maintain the unit such as cleaning porter, laundry porter, inmate barbers, and kitchen workers for Coronado and Kaibab units, sewing machine operators, maintenance, educational aides and tutors. This unit also has inmates employed in inter-governmental agencies and Arizona Correctional Industry (ACI) work assignments.

Apache Unit: This unit is a minimum custody, male unit. Due to the distance between the main complex and this unit, they also have a medical facility for inmates. Inmates at this unit are assigned to various jobs to support and maintain the unit and has 13 Off-site Work Crews: 2 Wild Land Fire Crew, 3 Arizona Department of Transportation, Arizona Department of Game and Fish (IGA), Apache County (IGA), Springerville Crew (IGA), Eager Crew (IGA), St. Johns Crew (IGA), Arizona Correctional Industries, Nature Sweet & Arizona Structural Laminators, WIPP assignments, Navajo county (IGA). Other various on-site work crews include Porters, Kitchen, General Labor, Barbers, Painters, Warehouse, Maintenance, Education Aids, Clerks, Welders, Plumbers, Laundry, and Fire Fighters. Academic Education includes: a Mandatory Literacy and, GED Preparation numerous self-improvement programs such as: AA, NA, Cultural Diversity, Conflict Resolutions, Nutrition/Yoga, Parenting, Cognitive Restructuring and Domestic Violence.

Complex Detention Unit: This is the main detention unit in the complex and has an individual cell environment. It has two wings with a control area in the middle.
SUMMARY OF AUDIT FINDINGS

On May 16 and 17, 2017, an on-site PREA audit was completed at the Arizona State Prison Complex in Winslow. The facility was found to be in compliance with all the PREA Standards and did not require a Corrective Action Plan. Two standards did not apply. The facility exceeded standards in one area.

Number of standards exceeded: 1
Number of standards met: 40
Number of standards not met: 0
Number of standards not applicable: 2
Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

☐ Exceeds Standard (substantially exceeds requirement of standard)
✓ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Pre-Audit Questionnaire and accompanying documentation indicate the agency has zero tolerance toward all forms of sexual abuse and sexual harassment in the facility. The policy outlines how it will implement the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment. The policy includes sanctions for those found to have participated in prohibited behaviors. The policy includes a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of inmates. The agency designates an upper-level PREA coordinator. The PREA coordinator has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. PREA Coordinator Michael McCarville answers directly to Sean Malone, Deputy Inspector General. Correctional Officer IV, Holly Morales, is the on-site PREA Compliance Manager and she answers to Major Ron Lawrence. All inmates and staff interviewed indicate a clear understanding of the zero tolerance policy.

Standard 115.12 Contracting with other entities for the confinement of inmates

☐ Exceeds Standard (substantially exceeds requirement of standard)
✓ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

N/A for Winslow. The agency (not the facility) contracts with other entities for the confinement of inmates and all these contractors are required to be PREA compliant.

Standard 115.13 Supervision and monitoring

☐ Exceeds Standard (substantially exceeds requirement of standard)
✓ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
During the audit it was found that the facility and agency have worked together to develop, document, and comply on a regular basis with a staffing plan that provides for adequate levels of staffing and video monitoring to protect inmates against abuse, taking into account all parts of this standard, including an annual review to see if adjustments are needed. Each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. According to documentation as well as staff and administrative interviews, there have been no deviations from staffing plan. The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The facility documents unannounced rounds, which cover all shifts. The facility prohibits staff from alerting other staff of the conduct of such rounds. In calculating adequate staffing levels and determining the need for video monitoring, the agency takes the following into consideration: (1) Generally accepted detention and correctional practices; (2) Any judicial findings of inadequacy; (3) Any findings of inadequacy from Federal investigative agencies; (4) Any findings of inadequacy from internal or external oversight bodies; (5) All components of the facility's physical plant (including “blind-spots” or areas where staff or inmates may be isolated); (6) The composition of the inmate population; (7) The number and placement of supervisory staff; (8) Institution programs occurring on a particular shift; (9) Any applicable State or local laws, regulations, or standards; (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and (11) Any other relevant factors. The average daily number of inmates is 1739. The staffing plan was predicated on an average daily number of 1739. Verification of compliance with this standard was based on a review of a great deal of documentation covering staffing planning and reviews, as well as logs showing that unannounced rounds are standard practice during all shifts.

Standard 115.14 Youthful inmates

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

N/A. Youthful inmates are not placed at Winslow. The agency policy prohibits placing youthful inmates in a housing unit in which a youthful inmate will have sight, sound, or physical contact with any adult inmate through use of a shared day room or other common space, shower area, or sleeping quarters. Policy also states that the agency will make best efforts to avoid placing juvenile inmates in isolation. Absent exigent circumstances, they will not deny juvenile inmates daily large-muscle exercise and any legally required special education services. Juvenile inmates shall also have access to other programs and work opportunities to the extent possible. Interviews, and documentation provided indicate that inmates under the age of 18 are not sent to Winslow but are sent to other facilities what can provide for their needs and follow the PREA standards regarding their care and supervision.

Standard 115.15 Limits to cross-gender viewing and searches

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

During the onsite audit it was verified that the facility does not conduct cross-gender strip or cross-gender visual body cavity searches of PREA Audit Report
inmates and there have been no exceptions known in the past year. If exceptions occur, documentation is required. Procedures had been implemented that enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (this includes viewing via video camera). Also, this Standard requires staff of the opposite gender to announce themselves when entering an inmate housing unit. The agency has a policy prohibiting staff from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. None of these searches have occurred and all staff have been trained on this policy. All interviews conducted during the audit, including inmate interviews, verify that no cross gender searches are being performed. Staff agree that if a cross gender search had to occur due to exigent circumstances, they would document. Interviews and observations during the tour also verify that inmates can perform bodily functions without genitals being viewed by staff of the opposite gender.

**Standard 115.16 Inmates with disabilities and inmates who are limited English proficient**

- ☐ Exceeds Standard (substantially exceeds requirement of standard)
- ☑ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has established procedures to provide disabled inmates and inmates with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Agency policy prohibits use of inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate’s safety, the performance of first-response duties under §115.64, or the investigation of the inmate’s allegations. There have been no exceptions, but if there are, they must be documented. Staff and administrators interviewed indicated an understanding of the importance this standard, and procedures in place so inmates with disabilities and with limited English proficiency can have equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Inmate interpreters are not being used. Inmates with disabilities who were interviewed indicated that staff help them understand what they need to understand.

**Standard 115.17 Hiring and promotion decisions**

- ☐ Exceeds Standard (substantially exceeds requirement of standard)
- ☑ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

During the audit process, policy was verified which prohibits hiring or promoting anyone who may have contact with inmates and prohibits enlisting the services of any contractor who may have contact with inmates who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section. Agency policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates. Agency policy requires
that before it hires any new employees who may have contact with inmates, it (a) conducts criminal background record checks, and (b) consistent with federal, state, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Agency policy requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with inmates. Agency policy requires that either criminal background record checks be conducted at least every five years for current employees and contractors who may have contact with inmates, or that a system is in place for otherwise capturing such information for current employees. Policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. Interviews with administrators indicated they will give information on substantiated sexual abuse to potential employers upon request, unless advised otherwise by the legal department.

Standard 115.18 Upgrades to facilities and technologies

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency/facility has not acquired a new facility or made a substantial expansion or modification to existing facilities, but has installed or updated a video monitoring system since the last PREA audit. Policy requires the sexual safety of inmates to be considered when making modifications and expansions.

Standard 115.21 Evidence protocol and forensic medical examinations

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency/facility is responsible for conducting administrative and criminal sexual abuse investigations (including inmate-on-inmate sexual abuse or staff sexual misconduct) and follows a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. The facility offers all inmates who experience sexual abuse access to forensic medical examinations in Flagstaff without financial cost to the victim. When possible, SANEs and SAFEs conduct the exams, but when they are not available a qualified medical practitioner performs the forensic medical examinations. The facility documents efforts to provide SANEs and SAFEs. The facility attempts to make a victim advocate from a rape crisis center available to the victim, either in person or by other means, and documents these efforts. If and when a rape crisis center is not available to provide victim advocate services, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member. If requested by the victim, a victim advocate, qualified agency staff member, or qualified community-based organization staff member accompanies and supports the victim through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information, and referrals. Crisis service providers contracted, MOU’s reviewed, and investigators interviewed, indicate evidence protocols are understood and followed.
Standard 115.22 Policies to ensure referrals of allegations for investigations

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. The agency has a policy that requires that allegations of sexual abuse or sexual harassment be referred for investigation to the agency investigators and that these referrals be documented. This policy is published on the agency website. To verify compliance with this standard, the auditor reviewed investigations and interviewed staff and inmates. The auditor also studied the notification, routing and referral processes taken when an allegation is made.

Standard 115.31 Employee training

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency trains all employees who may have contact with inmates on the following matters: (1) Its zero-tolerance policy for sexual abuse and sexual harassment; (2) How to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; (3) Inmates’ rights to be free from sexual abuse and sexual harassment; (4) The right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment; (5) The dynamics of sexual abuse and sexual harassment in confinement; (6) The common reactions of sexual abuse and sexual harassment victims; (7) How to detect and respond to signs of threatened and actual sexual abuse; (8) How to avoid inappropriate relationships with inmates; (9) How to communicate effectively and professionally with inmates, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming inmates; and (10) How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities. All staff employed by the facility, who may have contact with inmates, have been trained in PREA requirements. Between trainings, the agency provides employees who may have contact with inmates with refresher information about current policies regarding sexual abuse and sexual harassment, at least annually and when there are changes. The agency documents that employees who may have contact with inmates understand the training they have received through employee signature or electronic verification, verified by the auditor. Employees interviewed generally remembered receiving each portion of the training and indicated an understanding of the material, as well as a commitment to the well being and safety of inmates.

Standard 115.32 Volunteer and contractor training

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the
relevant review period)

Does Not Meet Standard (requires corrective action)

 Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

All 95 volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency’s policies and procedures regarding sexual abuse/harassment prevention, detection, and response. The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. All volunteers and contractors who have contact with inmates have been notified of the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. The agency maintains documentation confirming that volunteers/contractors understand the training they have received, which was reviewed by the auditor.

**Standard 115.33 Inmate education**

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

 Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Inmates receive information at time of intake about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or harassment. All inmates have received this information at intakes and received comprehensive information within 30 days. Agency policy requires that inmates who are transferred from one facility to another be educated regarding their rights to be free from both sexual abuse/harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to such incidents to the extent that the policies and procedures of the new facility differ from those of the previous facility. Inmate PREA education is available in accessible formats for all inmates including those who are: limited English proficient, deaf, visually impaired, otherwise disabled, and limited in their reading skills. The agency maintains documentation of inmate participation in PREA education sessions. The agency ensures that key information about the agency’s PREA policies is continuously and readily available or visible through posters, inmate handbooks, or other written formats. These were all reviewed during the on-site audit tour. Interviews with staff and inmates clearly indicate inmates have been trained and state they understand.

**Standard 115.34 Specialized training: Investigations**

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

 Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
The agency performs its own administrative and criminal investigations and investigators have received training in conducting such investigations in confinement settings. Specialized training includes techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. The agency has documented the training and it was reviewed by the audit team.

**Standard 115.35 Specialized training: Medical and mental health care**

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy related to the training of medical and mental health practitioners who work regularly in its facility. All medical and mental health care practitioners who work regularly at this facility received the training required by agency policy, and it is documented, but they do not conduct forensic medical exams. Medically trained staff interviewed remember their training regarding how to detect and assess signs of sexual abuse and harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse, and how to report allegations or suspicions.

**Standard 115.41 Screening for risk of victimization and abusiveness**

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy that requires screening (upon admission to a facility or transfer to another facility) for risk of sexual abuse victimization or sexual abusiveness toward other inmates. The policy requires that inmates be screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their intake. Risk assessment is to be conducted using an objective screening instrument, which considers: (1) Whether the inmate has a mental, physical, or developmental disability; (2) The age of the inmate; (3) The physical build of the inmate; (4) Whether the inmate has previously been incarcerated; (5) Whether the inmate’s criminal history is exclusively nonviolent; (6) Whether the inmate has prior convictions for sex offenses against an adult or child; (7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; (8) Whether the inmate has previously experienced sexual victimization; (9) The inmate’s own perception of vulnerability; and (10) Whether the inmate is detained solely for civil immigration purposes. The policy requires that the facility reassess each inmate’s risk of victimization or abusiveness within a set time period, not to exceed 30 days after the inmate’s arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening. The facility will reassess the inmate’s risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening. Inmates may not be disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked pursuant to the screening questions related to this section. The agency has appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates. Screenings and reassessments are recorded through computer entry by PREA Audit Report

12
screeners. Random selections of these screenings were provided for the auditor's review. Screeners and inmates interviewed provided additional verification that these screenings are completed appropriately.

Standard 115.42 Use of screening information

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency/facility uses information from the risk screening required by § 115.41 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. The agency/facility makes individualized determinations about how to ensure the safety of each inmate. The agency/facility makes housing and program assignments for transgender or intersex inmates in the facility on a case-by-case basis. Placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review any threats to safety experienced by the inmate. A transgender or intersex inmate's own views with respect to his or her own safety shall be given serious consideration. Transgender and intersex inmates shall be given the opportunity to shower separately from other inmates. Lesbian, gay, bisexual, transgender, or intersex inmates will not be placed in dedicated facilities, units, or wings solely on the basis of such identification or status. Interviews indicate screening information has been used appropriately, and protections are in place with limited access to sensitive information.

Standard 115.43 Protective custody

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has a policy prohibiting the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. There have been no inmates at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for their protection, but policy and procedure assures that inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility will document: (1) The opportunities that have been limited; (2) The duration of the limitation; and (3) The reasons for such limitations. However, there have been no instances of programs being limited in this circumstance. If an involuntary segregated housing assignment is made, the facility affords each such inmate a review every 30 days to determine whether there is a continuing need for separation from the general population, and will document this review. Information received during interviews conducted by the auditor team verify that these policies are known, in place, and being followed at the facility.
Standard 115.51 Inmate reporting

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has established procedures allowing for multiple internal ways for inmates to report privately to agency officials about: sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The agency provides at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency. The agency has a policy mandating that staff promptly accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties, and to give these reports promptly to their supervisor who will notify statewide PREA Investigators and to appropriate official(s) for investigation. Staff and inmates are informed of these procedures in writing, in training, verbally, and through signs posted in the facility. Inmates interviewed indicated they remember their options for reporting and that they can get help reporting. The inmate handbook’s PREA section includes the Zero Tolerance policy information, advocacy information, and includes the following statement: “Inmates can report sexual abuse and harassment to ANY staff member, contract employee or volunteer. Reporting PREA violations can be made anonymously, in person, in writing, by third party reporting, via the PREA hotline telephone system, or to Alice’s Place, Inc. staff who will report allegations back to department officials.”

Standard 115.52 Exhaustion of administrative remedies

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has an administrative procedure for dealing with inmate grievances regarding sexual abuse. Agency policy or procedure allows an inmate to submit a grievance regarding an allegation of sexual abuse at any time regardless of when the incident is alleged to have occurred. Agency policy does not require an inmate to use an informal grievance process, or otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. Agency policy and procedure allows an inmate to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Agency policy and procedure requires that an inmate grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. The agency has a written policy that limits its ability to discipline an inmate for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the inmate filed the grievance in bad faith. Department Order 802.09 states: “Staff receiving an Informal Complaint or Formal Grievance at any level that describes activity which may be in violation of the Prison Rape Elimination Act (PREA) . . . shall immediately initiate Department Order #125, Sexual Offense Reporting and notify the shift commander who shall notify the unit Deputy Warden or institution Warden.” Review of policy indicates ADC policy reflects all parts of this PREA standard and interviews indicate administrators understand these policies. Staff and inmates understand inmate rights to file grievances, and how they may be given assistance in this process.
Standard 115.53 Inmate access to outside confidential support services

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility provides inmates with access to outside and facility staff victim advocates for emotional support services related to sexual abuse by: Giving inmates mailing addresses and telephone numbers (including toll-free hotline numbers where available) for local, state, or national victim advocacy or rape crisis organizations. No inmates are detained solely for immigration purposes, so sections of this standard regarding these inmates do not apply to Winslow. Interviews at the facility indicate the facility is invested in enabling reasonable communication between inmates and these organizations in as confidential a manner as possible. The facility informs inmates, prior to giving them access to outside support services, the extent to which such communications will be monitored, and about the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant federal, state, or local law. The Inmate Handbooks include this information: “The Department of Corrections, ASPC – Winslow has sexual abuse advocates who can be utilized by inmate victims or witnesses of sexual abuse. You may contact Alice’s Place, Inc., at (918) 289-3003 or write: 312 E. Second St., Winslow Arizona 86047 for advocate services as well.” To verify compliance with this standard the auditor also reviewed and verified the Memorandum’s of Understanding (MOU) with Alice’s Place, Inc. The Alice’s Place Director Theresa Warren states the warden and staff at the prison are phenomenal to work with. Calls from the prison are rare and addressed appropriately and quickly. Inmates can receive all services that any victim in the community would receive and details regarding how those services would be provided in a confidential, secure, optional, and respectful way have been worked out. Director Warren is very informed about the coordinated response plans and knows of no barriers to getting victims the services they need. Alice’s Place has advocates answering their hotline live 24/7, and advocates can respond at any time day or night if needed. They can respond to the local Winslow hospital, but that facility does not provide sexual assault forensic exams (SAFE) or sexual assault nurse exams (SANE). If it is known that a victim needs a SANE or SAFE, they are referred to a community that offers these services and that community’s sexual assault response team (SART) is contacted and that SART will coordinate directly with local resources and advocates. Flagstaff is the closest facility with full forensic services, and SART, and it is the most often utilized by victims from the Winslow area. All advocacy organizations coordinate and receive training through the Arizona Centers Against Sexual Assault, which includes PREA training. In addition to basic PREA training, their staff also receive information about male sexual assault, male victims, and LGBTI victims. Alice’s Place provides co-ed services and operates shelters and a full range of counseling and follow-up services to victims. Local training and cooperation also occurs between Alice’s Place and the Winslow prison so that advocates understand the dynamics at the prison and prison staff have information about domestic violence and assault. In addition, Director Warren stresses, they are all a part of the Winslow community and coordinate on various projects and fund raisers. They see Winslow prison staff and inmates on the streets of the town as they work and go about their business engaging in positive interactions and mutually beneficial activities.

Standard 115.54 Third-party reporting

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
The agency provides a method to receive third-party reports of inmate sexual abuse or sexual harassment. Information about reporting is publicly distributed in the lobbies and visitation areas, and on the agency website. The auditor has verified that information is publicly available regarding how to report sexual abuse and sexual harassment on behalf of an inmate.

**Standard 115.61 Staff and agency reporting duties**

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

*Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The agency requires all staff to report immediately and according to agency policy: Any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; Any retaliation against inmates or staff who reported such an incident; and, Any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. Apart from reporting to designated supervisors or officials and designated state or local service agencies, agency policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are required to report sexual abuse and to inform inmates of the practitioner’s duty to report, and the limitations of confidentiality when they initiate services. If the alleged victim is under the age of 18 or considered a vulnerable adult under a State or local vulnerable persons statute, the agency will report the allegation to the designated State or local services agency under applicable mandatory reporting laws. The facility shall report all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to the facility’s designated investigators. Interviews indicate an understanding of this standard and related policies and procedures.

**Standard 115.62 Agency protection duties**

☐ Exceeds Standard (substantially exceeds requirement of standard)

☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

*Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

When the agency or facility learns that an inmate is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the inmate. Interviews with staff indicate a commitment to take immediate action when there are indications of risk of imminent abuse. Most inmates interviewed indicated they feel staff would take steps to protect. Interviews, and documentation reviewed indicate no times when the facility determined an inmate was subject to substantial risk of imminent sexual abuse. However, as stated previously, inmates tend to reveal a potential for other types of violence (non-sexual) and steps are taken to protect.

**Standard 115.63 Reporting to other confinement facilities**

☐ Exceeds Standard (substantially exceeds requirement of standard)
Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has a policy requiring that, upon receiving an allegation that an inmate was sexually abused while confined at another facility, the head of the facility must notify the head of the facility or appropriate office of the agency or facility where sexual abuse is alleged to have occurred. Agency policy requires the facility head to provide such notification as soon as possible, but no later than 72 hours after receiving the allegation. The facility documents that it has provided such notification within 72 hours of receiving the allegation. The agency or facility policy requires that: allegations received from other facilities/ agencies are investigated in accordance with the PREA standards. Verification of compliance with this standard was supported by a review of policy, investigations, and other Pre-Audit documentation. Also, interviews indicated regular communication between wardens and agency officials to assure compliance with this standard. However, there have been no allegations received in the past 12 months regarding inmates being abused at another facility, or of former Winslow inmates being abused while at Winslow before they left.

Standard 115.64 Staff first responder duties

Exceeds Standard (substantially exceeds requirement of standard)

Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has a first responder policy for allegations of sexual abuse. The agency policy requires that, upon learning of an allegation that an inmate was sexually abused, the first security staff member to respond to the report is required to: (1) Separate the alleged victim and abuser; (2) Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; (3) If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and (4) If the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. Agency policy requires that if the first staff responder is not a security staff member, that responder shall be required to: request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff. Staff interviews indicated that staff have a basic understanding of the first responder protocol. Also, investigative documentation, and interviews with inmates who have been considered victims, indicate these protocols are followed.

Standard 115.65 Coordinated response

Exceeds Standard (substantially exceeds requirement of standard)

Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)
Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility has developed a written institutional plan to coordinate actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, and facility leadership. This plan was reviewed and verified by the auditor.

**Standard 115.66 Preservation of ability to protect inmates from contact with abusers**

- ☑ Exceeds Standard (substantially exceeds requirement of standard)
- ☐ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has not entered into or renewed any collective bargaining agreement or other agreement since August 20, 2012. This agency maintains the ability to protect inmates from contact with abusers.

**Standard 115.67 Agency protection against retaliation**

- ☑ Exceeds Standard (substantially exceeds requirement of standard)
- ☐ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy to protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff. The agency monitors housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations for at least 90 days. In the case of inmates, such monitoring also includes periodic status checks. If any other individual who cooperates with an investigation expresses a fear of retaliation, the agency takes appropriate measures to protect that individual against retaliation. The agency acts promptly to remedy retaliation and continues to monitor longer 90 days if needed. There have been no instances of retaliation reported in the 12 months prior to the onsite audit. There are 67 upper level staff tasked with monitoring for retaliation in the complex. Inmates interviewed who have been considered alleged victims voiced appreciation for the process of monitoring for retaliation. Exceeding standards, not only do the monitors check for retaliation, but they inquire as to the general wellbeing of the inmate, and this seems to be done more often than required.
Standard 115.68 Post-allegation protective custody

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy prohibiting the placement of inmates who allege to have suffered sexual abuse in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. If an involuntary segregated housing assignment is made, the facility affords each such inmate a review every 30 days to determine whether there is a continuing need for separation from the general population, and documents these reviews. Documentation reviewed, and interviews conducted, indicate victims have not been placed in involuntary segregated housing for their protections in the past 12 months.

Standard 115.71 Criminal and administrative agency investigations

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

ADC has a policy related to criminal and administrative agency investigations and these investigations are typically done by agency investigators. Substantiated allegations that appear to be criminal are referred for prosecution. Where sexual abuse is alleged, the agency will use investigators who have received special training in sexual abuse investigations. These investigations will be conducted promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Investigators will gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator. Where the evidence seems to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and will not be determined by the person’s status as inmate or staff. The agency will not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. Administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and documents in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. The departure of the alleged abuser or victim from the employment or control of the facility or agency is not a basis for terminating an investigation. These policies and procedures were verified through documentation review, review of investigative files and interviews with investigators. Information regarding a total of 9 investigations (including ongoing investigations) was provided for the auditor to review.
Standard 115.72 Evidentiary standard for administrative investigations

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

As stated in policy and interviews with administration, as well as the agency investigators, the agency imposes a standard of a "preponderance of the evidence" when determining whether allegations of sexual abuse or sexual harassment are substantiated during administrative investigations.

Standard 115.73 Reporting to inmates

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has a policy requiring that any inmate who makes an allegation that he or she suffered sexual abuse in an agency facility is informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation by the agency. If an outside entity conducts such investigation, the agency requests the relevant information from the investigative entity in order to inform the inmate of the outcome of the investigation. Following an inmate’s allegation that a staff member has committed sexual abuse against the inmate, the agency/facility subsequently informs the inmate (unless the agency has determined that the allegation is unfounded) whenever: (1) The staff member is no longer posted within the inmate’s unit; (2) The staff member is no longer employed at the facility; (3) The agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or (4) The agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. Following an inmate’s allegation that he or she has been sexually abused by another inmate in an agency facility, the agency subsequently informs the alleged victim whenever: The agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or, The agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. The agency has a policy that all notifications to inmates described under this standard are documented. This documentation was reviewed by the auditor. There were 4 investigations in which inmates were informed regarding the outcome of the inquiry. 5 inmates (since one investigation had multiple alleged victims) were informed as per this policy and standard.

Standard 115.76 Disciplinary sanctions for staff

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)
Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

As verified by policy review and interviews with the Warden, PREA Coordinator, and HR, staff is subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member’s disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. During the past 12 months there have been no substantiated findings that staff engaged in sexual abuse or harassment, and therefore no terminations or discipline based on this standard, or notification of law enforcement.

**Standard 115.77 Corrective action for contractors and volunteers**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

ADC agency policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Agency policy requires that any contractor or volunteer who engages in sexual abuse be prohibited from contact with inmates. In the 12 months prior to the onsite audit, 2 contractors or volunteers have been reported to law enforcement agencies and relevant licensing bodies for engaging in sexual abuse of inmates. The Warden and PREA Compliance Manager verify that the facility takes appropriate remedial measures and considers whether to prohibit further contact with inmates in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

**Standard 115.78 Disciplinary sanctions for inmates**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Inmates at Winslow are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding, or criminal finding, the inmate engaged in inmate-on-inmate sexual abuse. When there are substantiated allegations, sanctions are to be commensurate with the nature and circumstances of the abuse committed, the inmate’s disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. The disciplinary process considers whether an inmate’s mental disabilities or PREA Audit Report
mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed. The facility offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse and considers whether to require the offending inmate to participate in such interventions as a condition of access to programming or other benefits. The agency would only discipline inmates for sexual conduct with staff only upon finding that the staff member did not consent to such contact. The agency prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. The agency prohibits all sexual activity between inmates, but does not deem such activity to constitute sexual abuse unless it determines that the activity is coerced. Compliance with this standard was verified by a review of policy and in interviews with investigators and the PREA Coordinator and Compliance Manager, although there were no substantiated allegations of inmate on inmate sexual abuse during the past 12 months, and therefore no inmates subjected to discipline for such activity.

Standard 115.81 Medical and mental health screenings; history of sexual abuse

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

All inmates at Winslow who have disclosed any prior sexual victimization during a screening pursuant to §115.41 are offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening, but this is usually sooner, provided during the booking/intake process. Medical and mental health staff maintain secondary materials documenting compliance with the above required services. Information related to sexual victimization or abuseseness that occurred in an institutional setting is strictly protected by policy and practice. Medical and mental health practitioners obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting. Compliance with this standard was verified through a random review of screening documentation and interviews with screeners and mental health professionals. Also, residents interviewed who said they disclosed prior abuse indicated they had been referred to mental health.

Standard 115.82 Access to emergency medical and mental health services

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Winslow inmate victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgment. If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, security staff first responders take preliminary steps to protect the victim pursuant to §115.62 and immediately notify the appropriate medical and mental health practitioners. Inmate victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates.
with any investigation arising out of the incident. The auditor reviewed sample documentation covering the past 12 months and found it to meet these standards and policies. Inmates are seen by medical providers onsite at the prison, at medical facilities in Flagstaff, and via telepsych as appropriate. Initial screening either indicates a need for additional care, or documents a resolution.

**Standard 115.83 Ongoing medical and mental health care for sexual abuse victims and abusers**

- ☑ Exceeds Standard (substantially exceeds requirement of standard)
- ☑ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion**, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

From a review of investigations and related documentation, agency policy, and interviews with administrators, the auditor has verified that the facility offers medical and mental health evaluation and, as appropriate, treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility as required by this PREA Standard. The evaluation and treatment of such victims includes, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. The facility provides such victims with medical and mental health services consistent with the community level of care. Inmate victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. The facility documents attempts to conduct mental health evaluations of all known inmate-on-inmate abusers within 60 days of learning of such abuse history and offers treatment when deemed appropriate by mental health practitioners.

**Standard 115.86 Sexual abuse incident reviews**

- ☑ Exceeds Standard (substantially exceeds requirement of standard)
- ☑ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion**, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Warden and the PREA Coordinator verify that the facility, according to policy, conducts a sexual abuse incident review, at the conclusion of every criminal or administrative sexual abuse investigation. The sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors, investigators, and medical or mental health practitioners. The review team will: (1) Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; (2) Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; (3) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; (4) Assess the adequacy of staffing levels in that area during different shifts; (5) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. The facility prepares a report of its findings from sexual abuse incident reviews, including but not necessarily limited to determinations made pursuant to this section, and any recommendations for improvement, and submits such report to the authority having jurisdiction.
report to the facility head and PREA Compliance Manager. Two of these reviews were indicated and performed during the period of time review for this audit. They were read by the auditor and included the elements required by these standards.

**Standard 115.87 Data collection**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion,** including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

ADC collects accurate, uniform data for every allegation of sexual abuse using a standardized instrument and set of definitions. The standardized instrument includes the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice. The agency aggregates the incident-based sexual abuse data at least annually. The agency maintains, reviews, and collects data in reports. The agency reports to the Department of Justice as requested. Interviews with investigators, the PREA Coordinator, the PREA Compliance Manager, the Warden and the Director’s designee indicate all information is available for compilation and review. Record keeping and statistical evaluation appears to be taken seriously by the agency and the various divisions within the agency who collect and provide the information to the PREA Coordinator.

**Standard 115.88 Data review for corrective action**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion,** including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

ADC reviews data collected and aggregated pursuant to §115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, and training, including: (1) Identifying problem areas; (2) Taking corrective action on an ongoing basis; and (3) Preparing an annual report of its findings and corrective actions for the facility. The annual report includes a comparison of the current year’s data and corrective actions with those from prior years. The annual report provides an assessment of the agency’s progress in addressing sexual abuse. The agency makes its annual report readily available to the public at least annually through the ADC website. The reports are approved by the agency head. When the agency redacts material from an annual report for publication the redactions are limited to specific materials where publication would present a clear and specific threat to the safety and security of the facility. The agency indicates the nature of material redacted. Compliance with this standard was verified through a review of annual reports and documentation provided during the audit process. Interviews with the state’s PREA Coordinator also indicated ongoing efforts to collect accurate data and to use the data to improve the system through effective processes to protect inmates.

**Standard 115.89 Data storage, publication, and destruction**

- Exceeds Standard (substantially exceeds requirement of standard)
☐ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Arizona Department of Corrections policy and procedure ensure that incident-based and aggregate data are securely retained, requiring that aggregated sexual abuse data be made readily available to the public, at least annually, and this is done through the their website, which the audit team found to be user friendly. They have published their policies as well as a variety of reports and statistics readily available at azcorrections.gov. Before making aggregated sexual abuse data publicly available, the agency removes all personal identifiers. The agency maintains sexual abuse data collected pursuant to §115.87 for at least 10 years after the date of initial collection, unless federal, state, or local law requires otherwise. Compliance with this standard was established through a review of the website, materials provided with the Pre-Audit Questionnaire, and interviews with administrators conducted during the audit.

**AUDITOR CERTIFICATION**

I certify that:

☐ The contents of this report are accurate to the best of my knowledge.

☐ No conflict of interest exists with respect to my ability to conduct an audit of the agency under review, and

☐ I have not included in the final report any personally identifiable information (PII) about any inmate or staff member, except where the names of administrative personnel are specifically requested in the report template.
