

## PUBLIC EXTRACT “READ ME”

The inmate data extract contains information on inmates who have been or are incarcerated in the Arizona State Corrections System. The computerization of inmate data was first enacted in 1985. While there is some inmate information prior to that time, it may not be as complete as the later data. The information contained in this extract is a “point in time” extract of the information that is found on the Arizona Department of Corrections Inmate Web and can be found at <https://corrections.az.gov/>.

The full set of information is contained in several data sets. Each data set is a TAB delimited and the first record in each data set contains the field names in the order that they were extracted to the data set.

The files have been compressed using WinZip.

The data sets are:
