1.3 Current Custody Ratings

Minimum Custody: Inmates who represent a low risk to the public and staff. These inmates may work outside the secure perimeter of an institution, to include community work crews, and do not require controlled movement within the institution.

Medium Custody: Inmates who represent a moderate risk to the public and staff. These inmates shall not work outside the secure perimeter of an institution and may, at times, require limited controlled movement within the institution.

Close Custody: Inmates who represent a high risk to the public and staff. These inmates shall not be assigned to work outside the secure perimeter of an institution. These inmates require controlled movement within the institution.

Maximum Custody: Inmates who represent the highest risk to the public and staff and require housing in a single cell or double cell environment. These inmates have limited work opportunities within the secure perimeter and require frequent monitoring. These inmates require controlled movement within the institution. This custody level does not apply to inmates designated as a Serious Mental Illness (SMI) by the mental health, female inmates or juveniles adjudicated as adults.

5.0 Behavioral Health Services

5.1 Medically Assisted Treatment (MAT)

To improve the health of incarcerated individuals with substance use disorders, an evidence-based Medication for Opioid Use Disorder (MOUD) program began at ADCRR in August 2023 at the Winslow Complex. Since August 2023, seven additional state-run complexes offer MAT services including medications, counseling, and discharge planning for those returning to the community.

The table below displays the number of days between the date an individual started on medication and January 31, 2024. The greater number of days on medication signals medication compliance and sobriety from opioids.

Of the 3,753 MAT participants, 1.8% (n = 66) are veterans and 49.7% (n = 1,866) are receiving ongoing mental health services. The average MAT participant age is 37 years old.

5.2 Mental Health Services

As of January 31, 2023, there are 11,136 (32.2% of total population) inmates receiving ongoing mental health services. These inmates scored a 3 or higher on a mental health assessment (see scores by age group below).

5.3 Inmate Health Services

The chart below displays the inmate health services provided in January 2024. The Hepatitis C numbers represent the number of inmates diagnosed with Hepatitis C, including both those receiving treatment and those yet to receive treatment. The HIV numbers represent the number of inmates diagnosed with HIV, including both those receiving treatment and those yet to receive treatment.

6.0 Restrictive Housing

Restrictive Housing refers to housing for inmates as a result of current and ongoing institutional violence or conspiracy to commit violent acts (e.g., serious assaults on staff, serious inmate-on-inmate assaults with a weapon, or multiple inmates assaulting an inmate with a serious injury). Restrictive Housing gives inmates an opportunity to modify their behavior in a positive way so they can safely return to the general population.

7.0 Correctional Programming

At intake, a series of assessments are completed and used in conjunction with criminal history data to create a Risk Level and Community Violence Risk Level. These two assessment results and sentence structure are used to prioritize inmates' program goals and placements. 8.3 Reentry Centers

The Pima Reentry Center (PRC, formerly Southern Region Community Corrections Center) was first established in December 2012 as an alternative to a return to custody. This program offers structure, supervision, surveillance, and drug/alcohol education and treatment opportunities to offenders who are in technical violation of their conditions of supervised released and/or who are in need of additional structured support to successfully complete community supervision. The targeted population includes offenders who are considered to be a high risk to recidivate but a low risk to the community, technical violators of their conditions of supervised release and offenders who are homeless and in need of short term emergency housing. In July 2016, the department opened its second Reentry Center in Maricopa County (MRC). Both programs have the goal to make community supervision more effective in protecting the public by responding to supervision violations swiftly and with certainty. The programs reduce the number of violators who require revocation by responding to negative behavior before it reaches a level of seriousness requiring incarceration and by making sure all appropriate intermediate community alternatives are used before return to custody.

9.0 AZ Crime Victims

The Office of Victim Services at ADCRR notifies victims of crimes any time an adult or juvenile inmate releases, escapes from, or dies in prison pursuant to ARS § 13-4413 and ARS § 13-4412. ARS § 13-603 (C) requires the courts to order convicted persons to pay restitution for victims' out-of-pocket losses that are directly related to the crime. ADCRR is bound under ARS § 31-254 to take 30% of an inmate's wages for court-ordered restitution. Through the Victim Compensation Program, Arizona provides financial assistance to victims of crime or those who become victims – more information can be found [here](#).

12.5 Inmate Self-Harm and Mortality Data

Because not all acts of inmate self-harm are suicide attempts, ADCRR has adopted a new method of counting acts of inmate self-harm (including any level of lethality [e.g., superficial, moderate, serious, etc.]) as of July 2018. Based on a review by medical/mental health staff, these incidents will be categorized as one of the following:

- Self-Injurious Behavior: Any act of self-harm without the intention to end one’s life.
- Suicide Attempt: Any act of self-harm with the intention to end one’s life.

This distinction allows ADCRR to better understand these incidents and refine prevention techniques.

Of the 145 Self-Injurious events in January 2024, 47% (68 of 145) were by cutting/burning/biting.
