The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) onsite audit of the Arizona State Prison Complex - Safford (ASPC - Safford) in Safford, Arizona; was conducted on October 28 - 30, 2020, by Marc L. Coudriet, Auditor # P4770, PREA Auditors of America, LLC. The facility is under the jurisdiction of the Arizona Department of Corrections. The purpose of the onsite audit is to assess and verify the implementation of all PREA policies and procedures. The onsite audit reflected the proper policies and procedures has been implemented. During the onsite audit review, Mr. Coudriet walked through the entire area reviewing the facility structure, inmate monitoring, inmate housing, medical/mental health, and operational areas, including common areas shared with multiple inmates.

The pre-audit preparation phase included a review of all documentation, materials, and data submitted by the agency in the completed Pre-Audit Questionnaire (PAQ) and uploaded in the PREA Online Auditing System (OAS). The documentation reviewed included agency policies and procedures; forms; organizational charts; PREA related posters, brochures; training documentation for staff, volunteers and contractors; and interagency collaborative agreements. In preparation for the onsite audit, the facility posted the required PREA Audit Notices six-weeks prior to the first day of the onsite audit. The agency provided emailed documentation, including pictures, to demonstrate the notices were posted in accordance with PREA Audit requirements.

During the onsite audit, the Auditor noted the notices were posted in the following areas: All common areas, Kitchen/Dining areas, Public Visitation, Staff Break Room, and Housing Units. The notices were printed in contrasting colors (black print on white background). The agency agreed to maintain the posted notices a minimum of six weeks after the onsite audit. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Arizona State Prison Complex - Safford (ASPC - Safford) is located at 896 S. Cook Road, Safford, AZ. The facility is under the Arizona Department of Corrections. Arizona State Prison Complex - Safford is divided into three housing units; Tonto Unit, Graham Unit, and Fort Grant Unit. There are educational and substance abuse programs at each of the units, all units provide inmates access to medical and dental care and each unit has an inmate work program.

The facility does not house female or youthful inmates. The 1924-bed complex has 51 housing units with a total of 0 single-cell room units and 24 dormitory/cell multiple occupancy housing units. The facility has 32 cells designated for detention, medical, transient/awaiting placement housing.

The facility operates a health clinic with 24-hour access to medical services with emergency services provided by Mount Graham Regional Medical Center in Safford, AZ, as needed.

The layout of the Arizona State Prison Complex - Safford (ASPC - Safford) is comprised of administrative buildings with multiple supervised hallways and outside walkways linking to the inmate housing areas. The facility has multiple movement control points and area control centers with continuous observation throughout the facility. The Fort Grant Unit is designed similar to campus style layout with multiple houses that house up to 10 inmates, each berthing area has a separate shower area with individual shower stalls and privacy curtains. The toilet areas have privacy partitions between the toilets.

The complex has a very clean and orderly appearance. The grounds are well manicured, and the facility appears to be well maintained. The correctional security program appears to be appropriate for the security classification.

The inmates interviewed indicated that they felt safe in the correctional environment provided by Arizona State Prison Complex - Safford (ASPC - Safford).

AUDIT FINDINGS

Summary of Audit Findings:

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	1
Number of standards met:	44
Number of standards not met:	0

During the past 12 months, the Arizona State Prison Complex - Safford (ASPC - Safford) reported 5 allegations of sexual abuse or sexual harassment which resulted in a criminal or administrative investigation. An incident review was conducted for each of these cases as well as all serious incidents, in accordance with agency policy. The agency is policy driven and has developed and implemented a policy for nearly every provision of each standard. The Auditor made an effort to accurately reflect the applicable agency policies for each provision of each standard. In reviewing each provision and the applicable policy, the Auditor reviewed applicable documentation and/or interviewed staff to confirm the policy had been implemented. Based on staff and inmate interviews, there was a strong indication the PREA standards are implemented as required and in accordance with the agency's policies.

The interviews of inmates reflected they were aware of PREA and acknowledged familiarity with how they could report allegations of sexual abuse and sexual harassment. All inmates interviewed reported feeling safe at the facility. The Auditor noted that inmates receive the PREA information verbally, in written format (Inmate Handbook, PREA Brochures) during intake, as well as internal television with the PREA video. The inmates interviewed indicated that they were aware of and understood the agency's Zero Tolerance Policy and what it meant for their protection. All received the information at intake and understood the multiple ways to report sexual abuse and harassment and how to protect themselves. At each housing unit within Arizona State Prison Complex - Safford (ASPC - Safford) inmates were able to describe how to report and what they would do if they were abused or threatened with abuse. They indicated that they felt safe and there was an open communication line between themselves and the correctional officers. All staff, including specialized and volunteers, interviewed indicated they were knowledgeable of PREA and of their roles and responsibilities related to reporting requirements as well as awareness of the procedures to follow if they are the first responders to any PREA related allegation.

Documentation reviewed, reflected the agency's implementation of policies and procedures to meet the PREA standards. The staff carry first responder cards, and they all knew the steps they must follow as a first responder.

The Auditor interviewed the SAFE/SANE nurse in charge of that program telephonically to confirm the agreement as it correlates to services rendered for Arizona State Prison Complex - Safford (ASPC - Safford) and to verify that the service would be available if needed. In addition, the Auditor interviewed two contractors to verify that they had received the zero-tolerance and other training required by PREA.

In summary, after review of all documentation, the results of the interview process and the observations during the onsite facility review, the Auditor believes the Arizona State Prison Complex - Safford (ASPC - Safford) Warden and his staff have a strong commitment to the PREA process. It was clear to the Auditor that Arizona Department of Corrections and the Arizona State Prison Complex - Safford (ASPC - Safford) policies and practices address the requirements of all PREA Standards. The Auditor noted at each of the units, the "would be" risk areas were mitigated by strategic place of mirrors, thus eliminating blinds spots and enhancing safety and security for the staff and inmates. This attention to detail by the ASPC – Safford Complex Warden, the individual unit Assistant Deputy Wardens and the Arizona Department of Correction personnel shows their commitment to ensure complete compliance to the PREA Program in this agency. The ASPC - Safford complex exceeded the Standard 115.31: Employee training.
