PURPOSE

This Department Order establishes procedures governing the Maximum Custody Management, and modifies the concept of programming Maximum Custody inmates and the Guiding Principles developed by the Association of State Correctional Administrators (ASCA).

RESPONSIBILITY

The Director has delegated the authority to revise the Program Matrices (Attachments B through I) to the Assistant Director for Prison Operations.

PROCEDURES

1.0 MAXIMUM CUSTODY MANAGEMENT OVERVIEW - Maximum Custody Management is a system that requires inmates in Maximum Custody to work through a program, utilizing a step incentive system, providing the opportunity to participate in jobs, programs, and other out of cell activities. Based on behavior and programming, inmates may progress from controlled based housing to open privilege based housing where movement outside a cell is without restraint equipment. Inmates shall be assigned to Maximum Custody in accordance with Department Order #801, Inmate Classification.

2.0 MAXIMUM CUSTODY MANAGEMENT - INTAKE AND ASSESSMENT

2.1 Upon arrival at Maximum Custody, inmates shall initially be assigned to the intake and assessment area at the Arizona State Prison Complex (ASPC)–Eyman, Browning Unit, except the population groups that require specialty housing (Sex Offender/Protective Custody/Serious Mentally Ill (SMI)).

2.1.1 The Sex Offender/Protective Custody inmate population shall complete intake and assessment at the ASPC-Eyman, SMU I Unit.

2.1.2 The SMI inmate population shall complete intake and assessment at the ASPC-Eyman, Browning Unit.

2.2 The contract Mental Health Lead at each Complex shall be notified, by the Count/Movement Officer, of all movement into the intake area within 24 hours of inmates' arrival.

2.2.1 Within three calendar days of placement at intake, all Maximum Custody male inmates shall be evaluated by a contract mental health clinician for program/treatment needs. The mental health clinician shall provide any recommendations to the Chief of Security or shift commander for alternative placement into an appropriate program when clinically indicated.

2.3 Within five business days of an inmate's arrival at Maximum Custody, the Assessment Team, consisting of a Deputy Warden, Chief of Security, Correctional Officer (CO) IV, Correctional Sergeant, and CO III shall:

2.3.1 Orient new arrivals on the expectations of Maximum Custody utilizing orientation materials.

2.3.2 Conduct a face-to-face interview with the inmate.

- 2.3.3 Conduct a review to place inmates in the appropriate Maximum Custody housing location. The review shall include:
 - 2.3.3.1 The Maximum Custody Placement Checklist, which requires the following screenings to be completed:
 - 2.3.3.1.1 Do Not House With (DNHW) Restriction
 - 2.3.3.1.2 Prior Protective Custody history
 - 2.3.3.1.3 Relevant Security Threat Group (STG) information
 - 2.3.3.1.4 Arizona Correctional Information System (ACIS), to include hard copy file review and housing restriction comments information
 - 2.3.3.1.5 Verification of Classification and Population type status
 - 2.3.3.1.6 Medical and Mental health needs status
 - 2.3.3.1.7 Additional information that may affect the safe, orderly, and secure operation of the institution upon placement
 - 2.3.3.1.8 Escape history
 - 2.3.3.1.9 Seriousness of the incident(s) resulting in placement in Maximum Custody
 - 2.3.3.1.10 Inmate's demeanor and attitude during the interview process
 - 2.3.3.1.11 Any special security concerns
 - 2.3.4 Document on the appropriate ACIS screen the recommended housing (unit) location and step level.
- 2.4 Inmates classified to Maximum Custody Units shall be assigned to specific housing areas, using a system of steps for managing inmates in the least restrictive way necessary to carry out the Department's mission.
 - 2.4.1 This applies to all Maximum Custody groups, including all specialty population groups.
- 2.5 The CO IV or designee shall notify Central Office Movement to schedule all inmates requiring external movement from the intake area to other Maximum Custody Units.
 - 2.5.1 Assignments to specific housing areas within Maximum Custody and the step level assigned are not subject to the grievance or appeal process.

3.0 MAXIMUM CUSTODY MANAGEMENT - SUBSEQUENT REVIEWS

- 3.1 The purpose of the Program Team is to review inmates monthly to decide step movement, housing, and review program needs and completion. Any decision concerning the inmate's mental health well-being is chaired by the senior clinical staff member present (within the scope of their authority).

- 3.1.1 The Program Team shall be comprised of Correctional Series staff (i.e., Unit Administrator, Captain, CO IV, Correctional Lieutenant, Correctional Sergeant, CO III, and CO II that are assigned to the unit/housing area), and may include support services personnel (i.e., teachers, chaplains and treatment counselors) and contract Mental Health professionals (i.e., Psychologist, Psychology Associate, and Behavioral Health Technician).
- 3.2 During subsequent reviews, the Program Team shall determine the inmate's step level. Inmates begin the program in Step I, with Step I being the most restrictive, and Step III being the least. Advancement through step levels and/or movement to a less restrictive housing location requires completion of all mandatory programs (as assigned) and compliance with rules.
 - 3.2.1 Inmates may receive additional programming as available in the Department's menu of programs.
 - 3.2.2 The step system is suspended while the inmate is on mental health or security watch or temporarily absent (e.g., hospital, court, etc.).
